	The Future, 128	
	Notes, 130	
	<i>Appendix 1: An Algorithm for Estimating Mood</i>	133
	<i>Appendix 2: Selected Data Series</i>	139
	<i>Appendix 3: Selected Domestic Policy Survey Questions</i>	143
	<i>References</i>	151
	<i>Index</i>	157

Tables and Figures

Tables

3.1	Correlations Between GSS Spending Items	41
3.2	Goodness of Fit for Regression Estimation of Mood	57
4.1a	Correlations of Issue Series with Estimated Mood: First Dimension	71
4.1b	Correlations of Issue Series with Estimated Mood: Second Dimension	72
4.2	Nine Independent Policy Domains: Factor Loadings with Varimax Rotation	87
5.1	Democratic Percentage of the Two-Party Presidential Vote, 1956–1996	102
5.2	Democratic Percentage of the Two-Party Presidential Vote: State by State, 1956–1996	105
5.3	Democratic Percentage of the Two-Party Presidential Vote in the States: LSDV and GLSE Models	107
5.4	Elections for the House of Representatives: Votes and Seats	110
5.5	Elections for the U.S. Senate: Democratic Seats	112
A.1	Alternative Estimators of Mood	139
A.2	Five Welfare State Policy Estimates	140
A.3	Five Policy Estimates	141

Figures

2.1	A Conceptual Scheme for Policy Choice in a Democracy	22
2.2	A Hypothetical Picture of Policy and Public Acquiescence over Time	24
2.3	Doing More on Health: An Illustration of Stationary and Nonstationary Attitude Series	30

3.1a	Liberalism for Six GSS Spending Series: Raw Liberalism Index	41
3.1b	Liberalism for Six GSS Spending Series: Series Adjusted to a Common Mean	42
3.1c	Liberalism for Six GSS Spending Series: Mean and Variance Standardized	43
3.1d	Liberalism for Six GSS Spending Series: Combined, with Plus and Minus One Standard Deviation Bounds	43
3.2a	Five Trendex Series: Liberalism Index	45
3.2b	Five Trendex Series: Mean and Variance Standardized	45
3.2c	Five Trendex Series: Combined, with Plus and Minus One Standard Deviation Bounds	46
3.3	GSS and Trendex Combined, 1968–1996	47
3.4	Domestic Policy Liberalism: Standardized Measures of All Domestic Policy Survey Marginals	52
3.5	Self-Identified Liberalism and Conservatism Measures on a Standard Scale	53
3.6	Domestic Policy Preference Marginals on a Standard Scale	54
3.7	Domestic Policy Preference Marginals: Military Spending Items Deleted	54
3.8	Preferences on Military Spending	55
3.9	Dummy Variable Regressions as Estimates of Mood for Domestic Policy	58
3.10a	Three Example Series, 1975–1996	61
3.10b	Three Example Series: Gun Control and Environment Standardized by 1996 Values	62
3.10c	Three Series in Standard Metric and Their Estimated Mean	63
4.1a	Estimated Policy Mood, 1956–1996: Original and Smoothed	68
4.1b	Two Estimation Techniques Compared	73
4.2	Doing More for Education: Trendex Series and Hypothetical Projections, 1956–1996	74
4.3	Policy Mood, the Second Dimension of Mood, and Self-Identified Liberalism and Conservatism, 1961–1996	77
4.4a	Five Components of the Welfare State on a Common Scale	80
4.4b	Five Components of the Welfare State, with Artificial Vertical Offsets	81
4.5a	Size of Government, Crime, Military Spending, and Environmental Protection on a Common Scale	83

4.5b	Size of Government, Crime, Military Spending, and Environmental Protection, with Artificial Vertical Offsets	84
4.6	A Scree (Elbow) Test of Dimensional Structure	86
4.7	Two Dimensions of Mood and Two Principal Component Estimates	88
4.8	Mood and Abortion Attitudes	89
4.9	Two Kinds of Issues: "Do More/Do Less" Priorities vs. Value Trade-offs	92
5.1	Mood and Macropartisanship	100
5.2	Democratic Percentage of the Two-Party Popular Vote in Presidential Elections and Policy Mood	101
5.3	Residual Presidential Vote and Mood	108
5.4	Liberal Moods and Democratic Wins in the U.S. Senate	111
5.5	Five Components of Electoral Mandates for 1964, 1980, and 1994	115
6.1	Mood in the Clinton First Term	126
