# Contents

<b>Introduction</b>	<b>xi</b>
<b>Acknowledgments</b>	<b>xv</b>
<b>1      What Is Behavioral Anthropology?</b>	<b>1</b>
Distinctive features and contribution of behavioral anthropology	
<b>2      Becoming a Behavioral Anthropologist</b>	<b>18</b>
Early training in the physical and social sciences	
Interdisciplinary Team Research: The Tri-Ethnic Project	
Dissertation research	
<b>3      Measuring Behavior</b>	<b>42</b>
Self-reports and behavioral choices	
Ratings by peers and authority figures	
Use of public records	
Measures of drinking behavior	
<b>4      Simple Data Analysis</b>	<b>64</b>
What is a correlation coefficient?	
Development of "Pattern Analysis"	
Analysis and Interpretation of the Tri-Ethnic data	
<b>5      Research Design</b>	<b>91</b>
Designing the Navajo Urban Relocation Research Project	
The Method of Multiple Models	
The Decision Model: Staying or leaving the city	
The Economic Adjustment Model: Wages and unemployment rates	
The Social Assimilation Model: Social relations and drinking behavior	

## Behavioral Anthropology

	The Personal Adjustment Model: Use of police records	
	The "Culture of Poverty" Model: Wages and arrest rates	
	The Migrant Stress and Health Model: Blood pressure and symptoms	
	Distinctive design features: Convergent methodology	
6	<b>Measuring Psychological Variables</b>	121
	The role of psychological variables in behavioral anthropology	
	Alternative strategies for measuring psychological variables	
7	<b>Social Channeling of Behavior</b>	149
	Social pressures and social constraints	
	Psychological motivation and social conformity	
8	<b>Samples and Surveys</b>	168
	Sampling theory and methods	
	The Navajo Migrant Project and Reservation Comparison Sample	
9	<b>Direct Observations of Behavior</b>	189
	Observing group differences in "Proxemic Behavior"	
	Observing childrearing behavior in three cultures	
	Strengths and limitations of systematic behavioral observations	
10	<b>A Different Kind of Ethnography</b>	211
	Culture change in a Polynesian island: A focus on within-group variability	
	Cooperative and competitive behavior on Aitutaki: Causes, correlates and consequences	
11	<b>Interplay between Theory and Research</b>	242
	The theory of preferred adaptive strategies and drinking behavior	
	Drinking and violence in New Zealand's pubs: a tri-ethnic study	
	Polynesian Migrant Adaptation survey	

## Contents

<b>12</b>	<b>Multivariate Analysis and Causal Inferences</b>	<b>272</b>
	Multivariate analysis in behavioral anthropology	
	Pattern analysis, multiple regression and causal path analysis	
<b>13</b>	<b>Research and Application</b>	<b>294</b>
	Interethnic attitudes and stereotypes	
	Migrant stress and health	
	Cooperative learning	
<b>14</b>	<b>Anthropology in the Twenty-first Century</b>	<b>318</b>
	Looking back: What ever happened to behavioral anthropology?	
	The evolution of anthropology as a behavioral science	
	Changes in society, science, and anthropology:	
	Exorcising the demon of reflexivity	
	Bringing the "culture wars" to an end	
	The evolving role of culture on human behavior	
	The changing culture of anthropology:	
	Studies of contemporary cultures	
	Recognizing within-group variability	
	Shifting emphasis toward the study of behavior	
	Theoretical and methodological eclecticism	
	Looking forward: Toward an integrated science of human behavior
