<i>List of Figures</i>	vii
<i>List of Tables</i>	viii
<i>Contributors</i>	ix
<i>Preface</i>	xiii
1 A Brief Introduction to Media Choice	1
TILO HARTMANN	
2 Social Cognitive Theories of Media Selection	10
ROBERT LAROSE	
3 Action Theory, Theory of Planned Behavior and Media Choice	32
TILO HARTMANN	
4 Uses and Gratifications as Media Choice	53
MARINA KRCMAR AND YULIYA STRIZHAKOVA	
5 Money Does Matter	70
HELMUT SCHERER AND TERESA K. NAAB	
6 The Effect of Subjective Quality Assessments on Media Selection	84
JENS WOLLING	
7 Fast and Frugal Media Choices	102
JULIAN N. MAREWSKI, MIRTA GALESIC, AND GERD GIGERENZER	
8 Cognitive Dissonance Theory—A Roller Coaster Career: How Communication Research Adapted the Theory of Cognitive Dissonance	128
WOLFGANG DONSACH	

9	Informational Utility as Determinant of Media Choices	149
	MATTHIAS R. HASTALL	
10	Affect as a Predictor of Entertainment Choice: The Utility of Looking Beyond Pleasure	167
	MARY BETH OLIVER	
11	Media Choice as Avoidance Behavior: Avoidance Motivations During Television Use	185
	ANDREAS FAHR AND TABEA BÖCKING	
12	Media Choice on a Micro Level: On-line Selective Strategies in Watching Television	203
	HELENA BILANDZIC	
13	The Role of Structure in Media Choice	221
	JAMES G. WEBSTER	
14	Media Choice Despite Multitasking?	234
	CEES M. KOOLSTRA, UTE RITTERFELD, AND PETER VORDERER	
15	Media Synchronicity and Media Choice: Choosing Media for Performance	247
	ALAN R. DENNIS, ROBERT M. FULLER, AND JOSEPH S. VALACICH	
16	Media Adoption and Diffusion	274
	THILO VON PAPE	
	<i>Index</i>	293

Figures

2.1	Path Analysis of Social Cognitive Model of Internet Usage	20
2.2	Socio-cognitive Model of Broadband Adoption	22
3.1	The Theories of Reasoned Action and Planned Behavior	34
6.1	Quality Perception and Transfer	88
6.2	Calculating the QA for the Desired Features	90
6.3	Calculating the QA for the Undesired Features	90
6.4	Logical Weaknesses in the Multiplication Approach of the Expectancy Value Theory	92
6.5	The Structure of Quality Dimensions as a Comparative Concept	97
7.1	How Does the Recognition Heuristic Work?	105
8.1	Intervening Variables in the Course of Dissonance Research	136
8.2	Logic of the Unit of Analysis	140
8.3	<i>Differential Effects of Dissonance for Positive and Negative Information</i>	141
9.1	Basic Assumptions of the Informational Utility Model by Atkin	155
9.2	Assumptions of the Informational Utility Model by Knobloch-Westerwick, Hastall, Grimmer, and Brück	158
9.3	Selective Exposure to Positive and Negative News Combined as Function of Informational Utility	160
11.1	Affect as Moderating Factor in the Gratification Discrepancy Model	195
15.1	Media Synchronicity Theory Implications for Media Choice	253
15.2	Communication System and Media Capabilities	257
16.1	Adoption Curve	278

Tables

5.1	Types of Costs in the Communication Process	77
7.1	Hypothetical Movie Environment	108
11.1	Factor Analysis: Reasons for Program Avoidance	192
15.1	Communication Process Characteristics	254
15.2	Comparison of Selected Media and their Capabilities	263
