Foreword: Making bodies, persons and families <i>Sarah Franklin</i>	7
--	---

Introduction

Researching reproductive technologies in East and West <i>Willemijn de Jong and Olga Tkach</i>	13
Reproductive technologies and the concept of normalisation <i>Willemijn de Jong</i>	25

National regimes of reproductive technologies

Assisted reproduction in Russia: legal regulations and public debates <i>Olga Brednikova, Nadya Nartova and Olga Tkach</i>	43
Assisted reproduction in Switzerland and Germany: regulative and social contexts <i>Shahanah Schmid</i>	57

Reproductive technologies, bodies and gender

Surrogate motherhood and sperm donorship in the Russian media: normalising the body <i>Nadya Nartova</i>	75
In vitro fertilisation in Switzerland: gendered normalisation practices <i>Andrea Fröh</i>	95

Reproductive technologies, parenthood and families

Finally parents: normalising infertility and reproductive treatment in Switzerland	115
--	-----

Zora Schaad

Making family and unmaking kin in the Russian media: reproductive technologies and relatedness	135
--	-----

Olga Tkach

Reproductive technologies, embryos and children

Embryos made in Switzerland: surprising persons and relatives	159
---	-----

Willemijn de Jong

‘Ersatz children’ in the Russian media: reproductive technologies and cyborgisation	179
---	-----

Olga Brednikova

Medical scientific discourse and reproductive genetics

Fertility science-as-culture: ambiguous nature, quantified abstractions and the making of normality	201
---	-----

Shahanah Schmid

Bridgeheads and concerns in the normalisation of reproductive genetics in Germany	221
---	-----

Bettina Bock von Wülfigen

Appendix

Table: Facts and figures on assisted reproduction in Russia, Switzerland and Germany	242
--	-----
