1	<b>The Implications of Future Population Change in America: The Rationale and Scope for an Assessment</b>	1
	Focus, Rationale, and Intended Uses for the Work, 1	
	Topical Organization of the Text, 2	
	Limitations of the Book, 4	
	Conclusion, 5	

## PART ONE

### *The Demographic Context of Change in America*

2	<b>America's Demographic Past: Setting the Framework for the Future</b>	9
	The International Context of Population Change in the United States, 10	
	An Overview of Demographic Change in the United States, 11	
	Summary and Implications of Current U.S. Population Patterns, 28	
3	<b>America's Future Population: Analyzing Alternative Demographic Futures</b>	31
	The Methods and Assumptions Underlying Population Projections, 32	
	Projections of the Future Population of the United States, 32	
	Alternative Projections of the U.S. Population, 48	
	Summary and Implications of Future Population Change in the United States, 49	

## PART TWO

*The Implications of Population:  
Change for America's Future*

- 4 The Labor Force: Implications for America's Competitiveness** 57
- Historical Trends in the Labor Force, 58
- The Future Size and Characteristics of the Labor Force of the United States, 62
- Implications of Future Changes in the Labor Force of the United States, 71
- Summary and Implications of Future Labor-Force Change in the United States, 85
- 5 Population Change, Household Structure, and Income and Poverty in America** 89
- The Linkages Between Demographic and Economic Factors, 90
- Future Patterns of Household Change, 91
- Implications of Population Change for Income and Poverty in America, 100
- Summary and Implications of Demographic Change for Income and Poverty, 110
- 6 Demographic Change and Business in America** 115
- Implications for Consumer Expenditures and Discretionary Income, 115
- Implications for Selected Business Sectors, 124
- Summary and Implications of Demographic Change for American Business, 145
- 7 Population Change, Services, Revenues, and Expenditures** 155
- Education and Health Service Needs:
- Past and Present, 156
- Future Education and Health Care Needs, 158
- Implications of Population Change for Education and Health Care, 177
- Implications for Public Costs and Revenues, 185
- Summary and Implications of Population Change for Services, Taxes, and Revenues, 186

<b>8</b>	<b>Summary, Conclusions, and Implications</b>	<b>193</b>
	Summary of Major Findings, 193	
	General Implications for American Society, 197	
	Conclusion: Knowing the Future Is Impossible, but Assessing It Is Essential, 202	
	<i>Notes</i>	205

## *Tables and Figures*

### TABLES

2.1	Population and population change in the United States by components of change, 1790–1992	12
2.2	Immigration into the United States, by period and area of origin of immigrants, 1820–1990	14
2.3	Birth, death, and net migration measures for the United States, 1940–1991	16
2.4	Selected characteristics of the total population of the United States and of movers, migrants, and immigrants in the United States, 1989–1990	18
2.5	Median age and sex ratio in the United States, 1900–1990	22
2.6	U.S. population 1970, 1980, and 1990, percent change in population 1970 to 1980 and 1980 to 1990, and proportion of population 1970, 1980, and 1990 by race and Hispanic origin, and ethnicity	24
2.7	Number and percent of households by persons in the household and average household size for the United States, 1940–1990	27
2.8	Median household income in the United States by age, migration status, and race/ethnicity of householder, 1990	30
3.1	Principal fertility, life expectancy, and net immigration assumptions of U.S. Bureau of the Census' projections of the population in the United States from 1992–2050 under alternative scenarios	33
3.2	U.S. Bureau of the Census' projections of the population in the United States by race/ethnicity from 1990–2050 under alternative scenarios	34
3.3	Percent change in the U.S. Bureau of the Census' projections of the population in the United States by race/ethnicity from 1990–2050 under alternative scenarios	36
3.4	U.S. Bureau of the Census' projections of the percent of the population in the United States by age and median age by race/ethnicity from 1990–2050 under alternative scenarios	38

3.5	U.S. Bureau of the Census' projections of the percent of the population in the United States by race/ethnicity from 1990–2050 under alternative scenarios	47
3.6	Recent low and high projections of the U.S. population from 2000–2050	50
4.1	The civilian labor force of the United States, 1900–1990	58
4.2	Characteristics of the civilian labor force of the United States from 1970–1990	59
4.3	Civilian labor force participation rates by sex, age, race, and Hispanic origin, 1975 and 1990, and moderate growth projection to 2005, the civilian labor force 1975 and 1990, and percent change in the labor force, 1975–1990	61
4.4	Projections of the labor force in the United States by race/ethnicity from 1990–2050 under alternative scenarios	63
4.5	Percent change in the civilian labor force for projections of the civilian labor force in the United States by race/ethnicity from 1990–2050 under alternative scenarios	64
4.6	Percent of the civilian labor force in the United States by year, age, and race/ethnicity from 1990–2050 under the middle scenario	69
4.7	Projections of the labor force in the United States from 1990–2050 by sex and race/ethnicity under the middle scenario	70
4.8	Civilian labor force in the United States by occupational group from 1930–1990	72
4.9	Projected job opportunities in the United States by occupation from 1990–2005	73
4.10	Selected occupational groups ranked by 1990–2005 projected percentage rate of employment growth and levels of educational attainment and median weekly earnings in 1990 in the United States	74
4.11	Projected percent change in employment for selected occupations in the United States from 1990–2005	75
4.12	Percent of persons 25 years of age or older by educational level and race/ethnicity, 1990	76
4.13	Number of labor force members reaching 65 years of age during each decade and approximate monthly retirement costs by decade, 1980–2050	77
4.14	Percent of labor force in the United States by sex and race/ethnicity in each occupation in 1990 and projected for 2050 under the middle scenario	78

4.15	Civilian labor force in the United States by occupation in 1990 and projected for 2050 assuming 1990 race/ethnicity composition and race/ethnicity composition under the middle scenario in 2050	81
4.16	Aggregate weekly income for civilian labor force in the United States in 2050 assuming 1990 distribution and projected distribution under the middle scenario	84
4.17	Civilian labor force in the United States by education level in 2050 assuming 1990 race/ethnicity composition by educational attainment under the middle scenario	85
5.1	Projections of households in the United States from 1990–2050 by race/ethnicity under alternative scenarios	93
5.2	Percent change for selected time periods in the projected number of households in the United States by race/ethnicity under alternative scenarios	95
5.3	Projections of the percent of total households in the United States by race/ethnicity from 1990–2050 under alternative scenarios	97
5.4	Percent of the households in the United States by age and race/ethnicity in 1990 and projection of the percent of the households in the United States by age, year, and race/ethnicity for 2000, 2030, and 2050 under the middle scenario	99
5.5	Number of households by type in the United States and percent change in the number of households by type, from 1990–2050 under the middle scenario	100
5.6	Number and percent of households in the United States by type of household and race/ethnicity of householder in 1990 and projected for 2050 under the middle scenario	101
5.7	Income distribution in 1990 and projected for 2050 for middle and zero immigration scenarios assuming projected race/ethnicity composition in 2050 and assuming 1990 distribution by race/ethnicity	105
5.8	Aggregate and average per-household income by race/ethnicity of the householder in 1990 and projected for 2050 under middle and zero immigration scenarios and projected for 2050 assuming 1990 race/ethnicity composition	106
5.9	Aggregate and average per-household income by household type in the United States in 1990 and projected for 2050 under the middle and zero immigration scenarios and assuming 1990 composition in 2050	109
5.10	Number and percent of families in poverty by family type in 1990 and projected for 2050 under the middle scenario	111

6.1	Consumer expenditures by category in the United States in 1990 and projected to 2050 under the middle scenario	117
6.2	Percent change in consumer expenditures by category in the United States for selected time periods from 1990–2050 under the middle scenario	118
6.3	Percent of consumer expenditures by category and age of householder in the United States in 1990 and projected for 2050 under the middle scenario	121
6.4	Projected discretionary income for households in the United States and proportion of discretionary income by race/ethnicity and age of householder, 1990 and 2050, under the middle scenario	123
6.5	Projected net worth and assets in the United States in 1990 and 2050 assuming race/ethnicity effects under the middle scenario	125
6.6	Proportion of net worth and assets in the United States by race/ethnicity of householder, 1990 and 2050, under the middle scenario	126
6.7	Projected net worth and assets in the United States, 1990 and 2050, assuming age effects under the middle scenario	127
6.8	Proportion of net worth and assets in the United States in 1990 and 2050 by age of householder under the middle scenario	128
6.9	Projected net worth and assets by category in the United States in 2050 by race/ethnicity and age of householder under the middle scenario and assuming 1990 distribution in 2050	130
6.10	Projections of the number of households in the United States by race/ethnicity from 1990 to 2050 under the middle scenario	133
6.11	Projections of the percent of households in the United States for selected years by housing tenure and race/ethnicity under the middle scenario	134
6.12	Projections of the percent of total households in the United States by race/ethnicity of householder and housing tenure from 1990–2050 under the middle scenario	135
6.13	Percent of the households in the United States by age and race/ethnicity in 1990 and the projected percent of the households in the United States by age and race/ethnicity for 2050 under the middle scenario	136
6.14	Projected aggregate annual expenditures for housing in the United States by housing tenure from 1990–2050 under the middle scenario	139
6.15	Projected percent of annual expenditures for housing in the United States by race/ethnicity and housing tenure from 1990–2050 under the middle scenario	140
6.16	Projected proportion of annual expenditures for housing in the United States from 1990–2050 by age of householder under the middle scenario	141

6.17	Projected annual expenditures for housing by tenure for the United States in 2050 assuming projected patterns by race/ethnicity and age of householder under the middle scenario and assuming 1990 distributions in 2050	142
6.18	Projections of the number of participants in selected recreational activities in the United States in 1990 and 2050 by race/ethnicity of participant under the middle scenario	143
6.19	Percent change in the number of participants in selected recreational activities in the United States from 1990 to 2050 by race/ethnicity of the participant under the middle scenario	145
6.20	Projections of the proportion of participants in selected recreational activities in the United States in 1990 and 2050 by race/ethnicity of the participant under the middle scenario	146
6.21	Percent change in the number of participants in selected recreational activities in the United States from 1990 to 2050 by age of participant under the middle scenario	147
6.22	Projections of the proportions of participants in selected recreational activities in the United States in 1990 and 2050 by age of participant under the middle scenario	148
6.23	Projected number of participants in selected recreational activities in the United States in 2050 under the middle scenario and assuming 1990 race/ethnicity and age of householder distributions in 2050	149
7.1	Elementary and secondary and college enrollment, teachers, and expenditures in the United States, 1870–1990	157
7.2	Selected health care data for the United States for 1980 and 1990	158
7.3	School enrollment rates and average physician contacts by age and race/ethnicity in the United States in 1990	159
7.4	Projections of total, elementary and secondary, and college enrollment in the United States from 1990–2050 by race/ethnicity under alternative scenarios	161
7.5	Percent change for selected time periods for projected total, elementary and secondary, and college enrollment in the United States by race/ethnicity under the middle scenario	164
7.6	Projections of the incidences of diseases/disorders in the United States, by race/ethnicity from 1990–2050 under alternative scenarios	170
7.7	Percent change for selected time periods in the incidences of diseases/disorders in the United States by race/ethnicity under alternative scenarios	171
7.8	Projections of the incidences of diseases/disorders in the United States by race/ethnicity and type of disease/disorder, 1990 and 2050 under the middle scenario	175

7.9	Proportions of the incidences of diseases/disorders in the United States by race/ethnicity and type of disease/disorder, 1990 and 2050 under the middle scenario	178
7.10	Projected numbers of teachers required for elementary and secondary and higher education by race/ethnicity of student and year under the middle scenario	180
7.11	Projected expenditures for elementary and secondary and higher education by race/ethnicity of student and year under the middle scenario	181
7.12	Projected health personnel requirements in the United States by type and year under the middle scenario	182
7.13	Projected number of physician contacts and associated costs in the United States by age of patient and year under the middle scenario	183
7.14	Projected days of hospital care and associated costs in the United States by age of patient and year under the middle scenario	184
7.15	Projected number of nursing home residents and total costs in the United States by age of resident and year for the middle scenario	185
7.16	Projected tax revenues in the United States assuming average tax by income category in 1990 and projected race/ethnicity composition in 2050 under the middle and zero immigration scenarios and assuming the 1990 race/ethnicity distribution in 2050	187
7.17	Annual federal revenues by source and expenditures by type in 1990 and projected in 2050 under the middle and zero immigration scenarios	188
8.1	Indices of dissimilarity (based on race/ethnicity categories) between populations, households, or labor forces and selected socioeconomic factors, 1990 and 2050	197
8.2	Indices of dissimilarity (based on age categories) between populations, households, or labor forces and selected socioeconomic factors, 1990 and 2050	198
8.3	Comparison of projections of selected items for 2050 under the middle scenario and projections completed for 2050 assuming 1990 Anglo rates apply to all racial/ethnic groups	201

## REFERENCE TABLES

2.1	Total fertility rates and number of children ever born by selected characteristics of women in the United States, 1990	211
2.2	Death rates by age, race, and Hispanic origin: United States, 1989	212
2.3	Population, percent population by age, and percent change by age in the United States 1970, 1980, and 1990	213
2.4	Households in the United States by type, 1970-1990	214

2.5	Selected socioeconomic characteristics of the population in the United States, 1940–1990	215
3.1	U.S. Bureau of the Census' alternative projections of the percent of the male and female population in the United States by age and race/ethnicity from 1990–2050 under the middle scenario	218
3.2	U.S. Bureau of the Census' alternative projections of the population in the United States by race/ethnicity and sex from 1990–2050 under alternative scenarios	221
3.3	U.S. Bureau of the Census' projections of the net numerical change in the population in the United States from 1990–2050 by race/ethnicity under alternative scenarios and proportion of net change due to each race/ethnicity group	223
5.1	Median household income in the United States by age of householder and race/ethnicity, 1989	224
5.2	Median household income in the United States by race/ethnicity, 1979 and 1989 and percent change 1979–1989	225
5.3	Average (mean) household income in the United States by type of household, 1990	226
5.4	Number and percent of persons in poverty in the United States by race/ethnicity, 1980 and 1990, percent change 1980–1990, and proportion of 1980–1990 net change due to each group	227
5.5	Income distribution of households in the United States by age of householder for 1990 and projected for 2050 under the middle scenario	228
6.1	Consumer expenditures by category in the United States in 1990 and projected to 2050 under the zero immigration scenario	232
6.2	Consumer expenditures in the United States by category and race/ethnicity in 1990 and projected to 2050 under the middle scenario	233
6.3	Consumer expenditures in the United States in 1990 and 2050 by category and age of householder under the middle scenario	237
7.1	Percent of incidences of diseases/disorders in the United States by age and race/ethnicity from 1990–2050 under the middle scenario	240

## FIGURES

2.1	United States and world population growth, 1950–2020	10
2.2	Percent of U.S. change due to immigration and natural increase	13
2.3	Percent change by race/ethnicity, 1980–1990	25
2.4	Percent of net U.S. population change by each ethnic group, 1980–1990	26

3.1	U.S. population 1950–1990 and projections to 2050, all scenarios	35
3.2	Median age of U.S. population by race/ethnicity, 1990–2050	43
3.3	Percent of net U.S. population change by each ethnic group, 1990–2050	46
3.4	Percent of the U.S. population by race/ethnicity, 1990–2050	48
4.1	Projections of the U.S. labor force from 1990–2050	65
4.2	Percent of net U.S. labor-force change by each ethnic group, 1990–2050	67
4.3	Percent of the U.S. labor force by race/ethnicity, 1990–2050	68
5.1	Projections of households in the United States, 1990–2050 under all scenarios	94
5.2	Percent of net household change by each ethnic group, 1990–2050	96
5.3	Percent of households in the United States by race/ethnicity, 1990–2050	98
5.4	Percent of aggregate household income by age for the United States, 1990–2050	104
5.5	Percent of aggregate income for households by race/ethnicity	107
5.6	Percent below poverty by family type, 1990 and 2050	112
6.1	Consumer expenditures in the United States by race/ethnicity, 1990 and 2050	119
6.2	Net change of owners and renters by each ethnic group, 1990–2050	138
7.1	Elementary and secondary enrollment growth, 1950–2050	165
7.2	College enrollment growth, 1950–2050	166
7.3	Net change in enrollment due to each ethnic group, 1990–2050	167
7.4	Percent enrolled elementary-secondary by ethnicity, 1990 and 2050	168
7.5	Percent of college enrollment by ethnicity, 1990 and 2050	169
7.6	Projections of incidences of diseases/disorders, 1990–2050	172
7.7	Percent of incidences by age group, 1990 and 2050	173
7.8	Percent of incidences by race/ethnicity, 1990 and 2050	174
