Preface — V

Pattern recognition, infeasible systems of linear inequalities, and graphs — 1

1 Infeasible monotone systems of constraints — 7

1.1 Structural and combinatorial properties of infeasible monotone systems of constraints — 8

1.2 Abstract simplicial complexes and monotone Boolean functions — 12

Notes — 18

2 Complexes, (hyper)graphs, and inequality systems — 20

2.1 The graph of an independence system — 20

2.2 The hypergraph of an independence system — 31

2.3 The graph of maximal feasible subsystems of an infeasible system of linear inequalities — 33

2.4 The hypergraph of maximal feasible subsystems of an infeasible system of linear inequalities — 53

Notes — 56

3 Polytopes, positive bases, and inequality systems — 58

3.1 Faces and diagonals of convex polytopes — 58

3.2 Positive bases of linear spaces — 67

3.3 Polytopes and infeasible systems of inequalities — 75

Notes — 90

4 Monotone Boolean functions, complexes, graphs, and inequality systems — 93

4.1 Optimal inference of monotone Boolean functions — 93

4.2 An inference algorithm for monotone Boolean functions associated with graphs — 100

4.3 Monotone Boolean functions and inequality systems — 110

Notes — 112

5 Inequality systems, committees, (hyper)graphs, and alternative covers — 115

- 5.1 The graph of MFSs of an infeasible system of linear inequalities and committees — **116**
- 5.2 The hypergraph of MFSs of an infeasible system of linear inequalities and committees — **125**
- 5.3 Alternative covers — **126**
- Notes — **130**

Bibliography — 133

List of notation — 141

Index — 144
