List of Figures	XI
List of Tables	XIII
1 Introduction	1
1.1 Subject focus and the principle research questions	1
1.2 Structure	4
2 Demographic Patterns in Comparative Perspective	7
2.1 Fertility	7
2.1.1 Average number of children: definitions	7
2.1.2 Total fertility rate	8
2.1.3 Cohort fertility rate (completed fertility)	13
2.1.4 Further fertility indicators	17
2.2 Nuptiality	23
2.2.1 Marriage-related rates	23
2.2.2 Divorce-related rates	28
3 Religion and Religiosity	37
3.1 Definitions	37
3.1.1 Religion	37
3.1.2 Religiosity	43
3.2 Factors associated with a nation's level of religiosity	50
3.2.1 Secularization	51
3.2.2 Modernization	53
3.2.3 The political situation and state-church relations	56
3.2.4 Denominational characteristics and dominant cultural tradition	58
3.2.5 Factors associated with a nation's level of religiosity in comparative perspective	65
3.3 Review of the literature on the effects of religiosity on fertility	66

4	How Religious Affiliation and Religiosity Affect Fertility	69
4.1	Explanations for the direct influence of religiosity	72
4.2	Denomination-specific behavior-regulating practices	74
4.3	Religiosity within an economic approach	78
4.3.1	The theory of time allocation and fertility	79
4.3.2	The implications of religiosity	82
4.4	Determinants of marital (in)stability	88
5	The National Frame and Individual Characteristics	97
5.1	The interacting frame for fertility decisions	98
5.1.1	Family-related policies	98
5.1.2	Socialism and the transformation	111
5.1.3	Effects of policies on fertility	113
5.2	Individual characteristics associated with fertility	117
5.2.1	Gender	117
5.2.2	Education and qualification	118
5.2.3	Female labor force participation	121
6	Empirical Analysis in Comparative Perspective	129
6.1	Data, variables, and statistical methods	129
6.1.1	The Generations and Gender Survey (GGS)	129
6.1.2	The dependent variable: completed fertility	134
6.1.3	The main explanatory variables: religious affiliation and religiosity	135
6.1.4	The covariates	139
6.1.5	Statistical method: Poisson regression	146
6.2	Descriptive analysis	149
6.2.1	Fertility	149
6.2.2	Religiosity	155
	Religious affiliation	155
	Frequency of attendance of religious services	162
	Attitudes towards religious <i>rites de passage</i> and importance of religious faith as child quality	165
6.2.3	Testing the theoretical presuppositions	173
6.2.4	Religiosity's impact on fertility	180
6.3	Regression analysis	187
6.3.1	The effects of religiosity on completed fertility	188
	Religious affiliation	188
	Frequency of attendance of religious services	195
	Attitudes towards religious <i>rites de passage</i> and importance of religious faith as child quality	200
6.3.2	The effects of the covariates on completed fertility	205
	Birth cohort	205
	The family of origin	211
	Education	216

	Marital stability	223
	Size of settlement	227
6.3.3	Religiosity, modernization, integration, and fertility: the case of Turkish Muslims	230
7	Conclusion	241
	References	249
	Appendix	273
