Introduction	17
---------------------------	-----------

Preface	21
----------------------	-----------

Mustafa El Tayeb

On Convergence of Different Fields

Converging Information, Communication and Media Technologies	25
---	-----------

Gyula Sallai

1 Introduction	25
2 Infocommunication Convergence Model	26
2.1 Value Chain Models for Infocommunications	27
2.2 The Converging Sectors	29
3 The Forms of Convergence	31
3.1 Horizontal Convergence Forms	31
3.2 Vertical Convergence and Sectorial Integration	33
4 The Levels of Convergence	33
4.1 Technology Level of Convergence	34
4.2 Market Level of Convergence	35
4.3 Regulatory Level of Convergence	36
5 Classification of Infocommunication Convergence Effects	38
6 Indicators of Infocommunication Convergence	39
7 Summary	42

Converging Technologies in Remote Sensing Platforms and Sensor Systems

Motion Control for Environmental Monitoring and Surveillance	45
--	----

Charles R. Bostater, Jr.

1 Introduction and Background	45
-------------------------------------	----

2	Methods	47
3	Summary	52

Vulnerability of Converging Technologies

The Example of Ubiquitous Computing	55
---	----

Klaus Kornwachs

1	Converging Technologies	55
1.1	Convergence on a Technological Level	55
1.2	Convergence on the Organisational Level	61
2	Vulnerability of N+B+I+C+...	64
2.1	A Definition of Vulnerability	64
2.2	The Concept of Technology	65
2.3	Vulnerability and Reliability	66
2.4	Coherence, Correspondence and Convergence of Technologies	71
3	Ubiquitous Computing	80
3.1	Basic Traits of Ubi Comp as a Converged Technology	80
3.2	Adding Moore's Laws: The Red Brick Wall	80
4	Basic Problems and Research Needs	82
5	Appendix	84
5.1	Proof of Equation 21	84
5.2	Proof of Equation 24	85
5.3	Proof of Equation 30	85
5.4	Proof of Equation 31	86
5.5	Proof of Equation 32	86

Natural Sciences and Medicine on Nanotech Based Converging Technologies

Convergence of Nanotechnology and Material Science:

Nanocomposites	91
-----------------------------	----

Feng Yang, Gordon L. Nelson

1	Introduction	91
2	Material Science	92
3	Nanotechnology	93
4	Nanocomposites – The Convergence of Nanotechnology and Material Science	94
5	Nano Hazard and Nano Toxicity?	95
6	Results	96
6.1	Method	97
6.2	Mechanical Properties	98

6.3 Thermal Stabilities	99
6.4 Flammability	100
6.5 Cone Calorimetry	101
7 Conclusion	104

The Convergence of New Technologies to Improve Water Quality 109

Virender K. Sharma

1 Introduction	109
2 Chlorination	110
3 Advanced Oxidation Processes	110
4 Converging Technologies	111
5 Ferrate(VI)	113
6 Pharmaceuticals and Estrogens	114
7 Cyanide	115
8 Coagulation	115
9 Converging Ferrate(VI) Technology	116
10 Conclusions	117

European Aspects of Converging Technology Development

The Case of Life and Medical Sciences	121
---	-----

Gábor Pörzse, László Várkonyi

1 Introduction	121
2 Different Approaches to Converging Technology Development	122
2.1 The American NBIC Concept	122
2.2 The European CTEKS Concept	123
3 The Potential Applications of Converging Technologies in the Field of Life and Health Sciences	125
3.1 Convergence of Nano-Bio Technologies (NB)	125
3.2 Convergence of Nano-Bio-Info Technologies (NBI)	127
3.3 The Role of Cognitive Sciences in the Convergence of Technologies	128
3.4 Convergence of Nano-Bio-Info Technologies and Cognitive Sciences (NBIC)	129
4 Representation of Converging Technologies in Life and Health Sciences in the European Research and Development Framework Programmes (FP6 and FP7)	129
4.1 Converging Technologies in the Sixth Research and Development Framework Programme	129
4.2 Converging Technologies in the 7 th Research and Development Framework Programme	132

Visions and Utopias

Utopian Aspects of the Debate on Converging Technologies 141

Christopher Coenen

- 1 Posthumanism and the Convergence of Technofuturist Visions 141
- 2 The Utopian versus the Posthumanist 147
- 3 Utopian Aspects of the Debate on Converging Technologies and Posthumanism 153
- 4 Conclusions 164
- 5 Postscript 166

Will We Find Utopia? Converging Technologies and Human Beings 173

Hans-Joachim Petsche

Nanoutopias 181

Zoltán Galántai

- 1 Welcome to Nanoutopia: Introduction 181
- 2 The Roots of Modern Technofears: the IT Origins 182
- 3 From AI to Nanotechnology – and Back to AI 185
- 4 Why the Future Doesn't Need Us? 186
- 5 From Joy's Proposal to Milton's Areopagitica 188

Development of Nanotech in Different Countries

Converging Technologies and the Poor

The Case of Nanomedicine and Nanobiotechnology 193

Guillermo Foladori

- 1 Introduction 193
- 2 The Neutrality of Technology is Only Relative, if It Is 194
- 3 Nanobiotechnology Carries in its Design the Mark of the Capitalist Market 202
- 4 Nanomedicine for the Poor? 204
- 5 Conclusions 210

Promises and Challenges of Converging Technologies in Mexico

New Legacies, Old Unfulfilled Promises 217

Medardo Tapia Uribe

- 1 The Problem 217

2 The Case of NBIC in the State of Morelos, Mexico	222
--	-----

Nanotechnology for Developing Countries. Asking the Wrong Question	229
---	------------

Noela Invernizzi

1 Introduction	229
2 What Do Scientists Base Their Forecasts on?	230
2.1 The Technical Approach	230
2.2 The Future Scenarios Approach	231
2.3 The Comparative Historical Approach	233
2.4 The Socio-economic Tendencies Approach	234
3 Conclusions	235

Nanotechnology Research in China

Performance, Policy, and Prospects	239
--	-----

Jingjing Zhang, Li Liu

1 Introduction	239
2 The Performance of Nanotechnology Research in China	240
2.1 Fast Growth	240
2.2 Independent Research Community	241
2.3 Multidisciplinary Research	243
2.4 Most Productive Organizations and Individuals	244
2.5 International Collaboration	246
3 Government Policies for Nanoscience and Nanotechnology	247
4 Prospects and Policy Recommendations	250

Social Visions and Nanotechnological Efforts in Ukraine	253
--	------------

Galyna Chybiskova

1 Introduction	253
2 Social Visions	253
3 Efforts in Nanotechnology	258
3.1 Technology of Multifunctional Nanomaterials	258
3.2 Fusion and Nanoparticles and Atomic Architecture of Nanostructures	260
3.3 Nanostructural Films and Coverings	261
3.4 Biotechnology and Health Care Applications	264
3.5 Space-related Researches and Aviation	266
4 Conclusion	267

Social and Ethical Aspects of Converging Technologies

Converging Technologies for Human Enhancement

A New Wave Increasing the Contingency of the <i>conditio humana</i>	271
---	-----

Armin Grunwald

1 Increasing Contingency through Scientific Progress	271
2 Human Enhancement in the Dialectics of Emancipation and Loss of Orientation	272
2.1 Converging Technologies for Improving Human Performance	273
2.2 Emancipation from Nature and Loss of Orientation	275
3 Increase of Contingency and Communication of the Future	277
3.1 Functions of Communication of the Future	277
3.2 Expectations of Salvation or Fear of Catastrophes?	279
3.3 The Ambivalence of Futuristic Visions	280
4 Vision Assessment for the Rationalization of Expectations on the Future	282
4.1 The Actual Significance of Futuristic Visions	282
4.2 Steps in Vision Assessment	284
5 Résumé: The Modified <i>conditio humana</i>	286

Social Aspects of Nanotechnology

National Science Foundation (NSF) Initiatives and Developments	289
--	-----

Rachelle D. Hollander

1 The Social Context	289
2 NSF's Role	290
3 Conclusion	294

Societal Dimensions of Nanoscale Science, Technology and Engineering

NSE Research and Education Activities	295
---	-----

Priscilla M. Regan

1 Introduction	295
2 Ethics	296
3 Public Deliberation and Dialogue	297
4 Science Policy of NSE	298
5 Regulatory Capacity	298
6 Challenges of Addressing Longer-term Societal Dimensions of NSE	299

From the Ethics of Technology to the Ethics of Knowledge Assessment 303

René von Schomberg

1 Introduction 303

2 Four Developments that Illustrate the Shortcomings of Individual Role-Responsibility 304

3 From Individual Role Responsibility to Collective Co-Responsibility 309

4 Foresight and Knowledge Assessment 313

5 Foresight and Deliberation 315

6 Deliberation on New Technologies: Nanotechnology, Converging Technologies 319

Nanotechnology and Ethics

The Role of UNESCO in the International Context 325

Simone Scholze

1 Ethics of Science and Technology at UNESCO 325

2 Ethics of Science and Technology Research Programme: Nanotechnology 327

3 Other International Relevant Initiatives 330

4 Some Final Remarks 332

Authors and Editors 333
