1 Introduction	1
References	7
2 Theoretical Research on Fertility Behavior in Demography	9
Section 1. Theories Abroad on Fertility Behavior	10
Double Check Theory	10
Demographic Transition Theory	12
Theory of Net Intergenerational Wealth Flows	14
Rational Choice of Marginal Children	15
Quantity-Quality Trade-off of Children Theory	17
Supply-Demand Theory of Fertility Determination	18
Freedman's Theory of Multiple Motivations	19
Section 2. Research in China on Fertility Behavior	21
Generational Succession – Parent Care by Adult	
Children Model	21
Village Society of Acquaintances Model	23

Fertility Culture Model	24
References	27
3 Historical Overview of the Dai Traditional Fertility Behavior	29
Section 1. General Picture of the Dai Population in the Late Qing Dynasty and the R.O.C. Period	30
Section 2. Dai People's Demographic Situation from the Founding of the People's Republic of China to the Initial Phase of Reform and Opening-up	41
Section 3. Dai Fertility Behavior since the Reform and Opening-up	45
References	53
4 Empirical Study of the Dai Traditional Fertility Behavior	55
Section 1. Survey Design	56
Survey Site Selection	56
Interviewee Selection	56
Paradigm for Recording Survey Results	57
Section 2. Written Records of Interviews	58
Special Survey in Xishuangbanna Dai Autonomous Prefecture	58
Special Report on Dehong Dai and Jingpo Autonomous Prefecture	73
Section 3. Integrated Data Information	88
Section 4. External Expression of the Dai Ethnic Traditional Fertility Behavior	92
Reference	96
5 Factors in Traditional Low Fertility Rates among the Dai	97
Section 1. Traditional Economic Life of the Dai People	99
Daily Consumption of the Dai People	100
Farming Products and Techniques in the Dai Communities	116
Handicraft, Business and Home Farming in the Dai Ethnic Areas	123
Section 2. Traditional Family Structure in Dai Society	144
Family Population Composition	145
Marriage Customs	147
Surnames and Names	151
Family and Kinship Relationship	155

Family Property and Inheritance	161
Section 3. Traditional Social Environment for the Dai families	169
Land Systems	169
Families and Villages	175
References	179
6 Theoretical Analyses and Interpretations of the Traditional Low Fertility Behavior of the Dai	183
Section 1. Analysis of the Applicability of Classical Population Theories to the Dai Ethnic Traditional Low Fertility Behaviors	183
Section 2. Formation of the Traditional Fertility Concept in the Dai Ethnic Society	191
Southern Buddhist Culture and Its Role in the Dai Traditional Cultural Life	191
Core Values of Southern Buddhism and Their Impact on Fertility Behavior	197
Formation of Religious Outlook on Life, Values and Traditional Fertility Concept in the Dai Society.	202
Section 3. Formation Mechanism of Traditional Low Fertility Behavior in the Dai Society	210
Section 4. Theoretical Interpretation of Traditional Low Fertility Behavior in the Dai Ethnic Society	213
References	218
7 Rethinking of the Interpretation Paradigm of Human Fertility Behavior	221
Section 1. Commonalities and Differences of Human Fertility Behavior	221
Section 2. Theoretical Interpretation of Human Fertility Behavior	224
Section 3. Rethinking of the Interpretation Paradigm of Human Fertility Behavior	231
References	235
8 China Adapts to Low Fertility Rates	237
Section 1. Current Situation and Issues of Population Development in China	237
Section 2. Thoughts and Recommendations on Stabilizing Low Fertility Rates in China	239
References	243

Appendix	Survey Records of the Reproductive Histories of Surveyed Dai	
	Households	245
	Xishuangbanna Dai Autonomous Prefecture	245
	Village M in Gasa Township of Jinghong Municipality	245
	Village G in Mengzhe Township of Menghai County	317
	Village H in Mengpeng Township of Mengla County	356
	Dehong Dai and Jingpo Autonomous Prefecture	400
	Village N in Fengping Township of Luxi City	400
	Village Z in Jiexiang Township of Ruili City	457
	Summary	505
