List of Authors and Chapters XXIII

Introduction 1

Part 1: The Digital Transformation 3
A. Thoughts on Legal Tech and Digitalization *(M. Hartung)* 3
I. Legal Tech: Is it really all that new? 3
II. Better technology, more risk capital 4
III. Definition 5
1. What is Legal Tech? 5
a) Definitions from Wikipedia 5
b) Definition according to a study by Bucerius CLP and The Boston Consulting Group 6
2. Taxonomy of Legal Tech 7
a) Automated legal advice products 7
b) Electronic marketplaces 7
c) Legal process outsourcing 7
d) e-Discovery and document review 8
IV. Legal Tech and Access to Justice (A2J) 8
1. Consumer advice (B2C) 9
a) German study of 2013 on the behaviour of people seeking legal advice 9
b) Lawyers' self-perception 10
c) The advantages of Legal Tech over lawyers 10
d) Platforms 10
e) Interim-conclusion 11
2. Business law advice (B2B) 11
a) Different roles of lawyers in B2B 11
b) Software replaces lawyers? 12
c) Access to information 12
3. Legal Tech helps law firms to transform their services 13
V. Conclusion 13

B. Digital Transformation: Success Factors *(Bues)* 15
I. Introduction 15
II. Strategies for Digital Transformation 16
1. Framework for a Digital Strategy 16
2. Exploration & Vision: What can and should be changed, and when? 17
a) Business models 17
b) Processes 19
c) Structures 20
d) Customer experience 21
3. De-masking & Kick-off: Success factors 21
a) Identification of internal barriers 22
b) Building blocks of an innovation culture 23
c) Clear leadership and management buy-in 25
d) Participation of the entire company 26

C. How to Develop a Legal Tech Strategy *(Halbleib)* 27
I. Introduction 27
II. Examples of Legal Tech Strategies and Legal Tech Products 27
III. Increasing Efficiency of Existing Legal Products 29
1. Step 1: Business Analysis and Identifying Potential for Efficiency Increases 29
2. Step 2: Workflow Analysis 31
3. Step 3: Implementation 33

Bibliografische Informationen
http://d-nb.info/1159658455

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

IV. Development of new Digital Legal Products ... 34
1. How to Generate Ideas for new Legal Products? ... 34
2. Digital Products Require new Billing and Business Models ... 35
3. High Initial Investments are Necessary ... 35
4. Return on Investment ... 36
5. Legal Requirements ... 37
V. Conclusion: Entrepreneurial Thinking is Crucial ... 37

Part 2: Legal Tech and Big Law ... 39

A. The Legal Industry in Transition – How Did We Get Here and How Has Technology Changed the Marketplace? *(Cohen)* ... 39
I. From Guild to Marketplace ... 39
II. The Forces of Change ... 40
III. Technology's Impact on Transformation ... 40
IV. The Changing Role of Lawyers ... 41
V. The "Profession," the "Industry," and Self-Regulation ... 42
VI. The Value of Independent Regulators: The UK Bifurcated Model ... 42
VII. Conclusion ... 43

B. Big Law & Legal Tech *(Wenzler)* ... 44
I. Challenges ... 44
II. Opportunities created by technology ... 44
III. The law firm of the future ... 46
IV. Technology, data and the division of labor ... 47
V. Conclusion ... 48

C. Commercial Law Firms Under the Influence of Artificial Intelligence – Status Report and Outlook Using the Analysis Software Kira as an Example *(Krause/Hecker)* ... 49
I. Introduction ... 49
II. Main area of application of legal due diligence ... 50
III. Machine learning technology ... 50
IV. Further areas of application ... 51
1. Compliance ... 51
2. Contract management and contract design ... 51
3. Lease abstraction ... 52
V. Application of the software ... 52
1. How does analysing with Kira work? ... 52
2. Clear comparison of summary and original document ... 52
3. Tags ... 53
4. Quick Study ... 53
5. Project management tool ... 54
6. Security issues ... 54
VI. Advantages of using Kira ... 54
VII. Can Kira replace lawyers? ... 55
VIII. Challenge for law firms ... 56

D. Law Firms as Incubators: Lessons Learned from the First Initiatives *(Bernard)* ... 58
I. Introduction ... 58
II. Strategizing innovation… and assessing where incubation fits in ... 59
1. Focusing on client pain points ... 59
2. Opening a window to allow for deeper exploration ... 59
3. Law firms: Giving it some thought… and a structure ... 60
III. Incubating ideas, incubating solutions ... 61
1. A portfolio approach ... 61
2. Preparing the future with current parameters at hand ... 62
3. The startup bias ... 62
4. Startup washing: an unsustainable signal ... 63
IV. Incubation as a catalyst of human synergies ... 63
1. Lateral perspective: not the external caution you may look for ... 63
2. Lawyers: at the core of incubation ... 64

3. Business support's role growing through incubation ... 64
4. Dedicated team and resources ... 65
V. What could possibly go wrong? Leveraging the risk of failure ... 65

E. Norton Rose Fulbright ContractorCheck: From Development to Use of an Online Tool in Employment and Labor Law *(Fiedler)* ... 68
I. Legal issues prompting the need for ContractorCheck ... 68
II. ContractorCheck ... 69
1. First step: Deciding on employment and labor law ... 69
2. How does the ContractorCheck work? ... 69
a) Basic functionality ... 70
b) Logic of ContractorCheck ... 70
c) Development of ContractorCheck ... 71
3. What were the next steps? ... 71
4. How is ContractorCheck used? ... 72
5. Who is ContractorCheck relevant for? ... 72
III. Conclusion ... 72

F. Deloitte + Legal + Tech *(Northoff/Gresbrand)* ... 74
I. Document Automation "plus alpha" ... 74
II. Legal Expert Systems: Low Tech, High Impact ... 76
III. Information Extraction ... 77
IV. e-discovery ... 78
V. The Challenge of Legal Tech ... 78
VI. What's Next ... 80

G. The Big Four and the Digital Revolution *(von Busekist/Glock/Mohr)* ... 81
I. Introduction ... 81
II. Opening up to the digital transformation ... 81
III. Openness for fundamental changes to processes and process design ... 84
IV. More interdisciplinary links with non-legal fields ... 84
V. Back to the start: Innovation as a driver of digital transformation in legal consulting ... 86
VI. Implementation, and then what? – An outlook ... 89

H. Law Firm Innovation – from Incubators to Transformation *(Tromans)* ... 90
I. Beyond Utility, Beyond Basic Innovation ... 90
II. Bringing legal tech companies into the law firm ... 90
III. Training and new career paths ... 91
IV. Education and capacity building ... 91

I. The Clearspire Story *(Cohen)* ... 93
Preface ... 93
I. Introduction: The Legal Marketplace At The Time Of Clearspire's Founding ... 94
II. The Clearspire Founders And Their Vision ... 94
III. The Regulatory Issue And The Two-Company Model ... 96
IV. Coral: The Clearspire Technology Platform ... 96
V. The Path To Market ... 98
VI. Marketplace Challenges ... 98
VII. Marketplace Reception ... 99
VIII. Lessons Learned: Clearspire In Hindsight ... 101
Epilogue ... 102

Part 3: Legal Tech in Small and Medium Firms ... 105
A. Legal Tech – The Digital Mindset *(Klock)* ... 105
I. Legal Tech brings the legal world to the state of facts and puts all participants on an equal footing ... 105
II. Does Legal Tech concern me at all? ... 106
III. How to implement Legal Tech in your law firm ... 107
IV. Focus and strategy as an important part of the Legal Tech mindset ... 107
V. Reorienting the firm's focus ... 107
VI. The (right) product – The Key to Success ... 108

VII. Making Business – Marketing and sales are also important for small law firms! ... 109
VIII. They have to know you – Getting Attention! ... 110
IX. The more you internalize Legal Tech, the sooner software is needed ... 111
X. Big steps for small budgets ... 112
XI. Bringing the product to Tech and creating the basis for further growth ... 112
XII. Legal Tech installed – What are the consequences for my business model? ... 113
XIII. Fundamental influence of Legal Tech on the business model of these firms ... 114
XIV. The threat to one's own business model is turning into an opportunity for strong growth ... 114

B. Transforming a Consumer Law Firm to a Modern Legal Service Provider *(Gansel)* ... 115
I. Introduction ... 115
II. Consumer lawyers and technology at the end of the 20th century (1999–2005) ... 116
1. Crime scene: Capital market ... 116
2. Consumer-friendly jurisdiction stirs customers into action ... 116
3. The law firm as a manufactory ... 116
III. Our new mindset: From reaction to action (2006–2014) ... 117
1. Public relations and marketing ... 117
2. Operations, A-Team and front office ... 117
3. Right to free admission: Initial consultation and coverage inquiry for free ... 117
4. From audiences to phone calls to e-mails ... 117
5. Understandable language instead of technical jargon ... 117
6. The digitalization of documents and data ... 117
7. Mobile Working: Useful for individuals and companies ... 118
8. Specialization and knowledge management ... 118
IV. Rethinking legal services (2015–2018) ... 118
1. Modern corporate management structure ... 118
2. Business Development role ... 118
3. Implementing Software Development ... 119
4. New job profiles: Legal Architect, Legal Engineer, Product Owner, Scrum Master ... 119
5. Think tank: "Legal Hackathon" ... 119
6. Making use of Artificial Intelligence ... 119
V. A gleam of hope for collective law enforcement in 2018 ... 120
VI. Conclusion ... 120

C. Legal Tech in a Small Specialist Law Firm *(Greisbach)* ... 121
I. Area of activity/Use-case ... 121
II. Approach ... 121
III. Procedure ... 122
1. Recording the facts ... 123
a) Method of recording ... 123
b) Validation of facts ... 123
c) Examination of facts ... 124
2. Process flow ... 124
a) Task ... 124
b) Technical implementation ... 125
IV. Meaning of "Tech" in Legal Tech ... 125

D. With Our Back to the Wall! How Digitalization Saved Our Law Firm – and, in Addition, Brought Us a Large Number of Clients *(Solmecke)* ... 127
I. A traffic jam, to start with ... 127
II. A television dispute ... 127
III. First attempts at reorganization ... 128
IV. Working with a call center ... 128
V. Self-developed software ... 129
VI. Paper files as an obstacle to innovation ... 130
VII. Lessons learned ... 131
VIII. The Redtube warning wave ... 132
IX. In conclusion ... 133

Part 4: Legal Tech Goes Inhouse ... 135
A. Legal Tech in Inhouse Legal Departments *(Quade)* ... 135
I. Introduction ... 135
II. Preparations for the digitalization of the legal department/Digitalization readiness ... 138
1. Process documentation and analysis ... 139
2. Target areas for digitalization ... 140
III. Strategy and architecture ... 141
1. Strategy ... 141
2. Architecture ... 142
a) An application platform architecture ... 143
b) A complex, integrated single-point solution application architecture ... 144
IV. The digital legal department as software development department? ... 144
1. Standard applications ... 144
2. Self-developed applications ... 145
3. Customizing ... 145
4. Agile applications ... 146
V. Use cases ... 146
1. Smart contracts ... 147
2. External legal manager ... 147
VI. Data ownership ... 148
VII. Employee motivation and qualifications ... 148
VIII. Conclusion and next steps ... 149

B. Legal Tech Made to Measure – the Contract Drafting Process with the Audi DocCreator *(Brtka/Keller/Levien)* ... 150
I. Introduction ... 150
II. Preliminary considerations ... 150
III. Requirements analysis and first steps ... 151
IV. Rights/role concept ... 152
V. Content and user guidance ... 153
VI. Conclusion and outlook ... 154

C. From Contract Management to Legal Content Management *(Jacob)* ... 156
Summary ... 156
I. Introduction ... 156
II. Current state of play in Contract Management ... 157
1. What is Contract Management? ... 157
2. Contract Management at SAP ... 158
3. Processes ... 158
4. Technology ... 159
5. People ... 159
6. Content ... 160
7. Self-perception and external perspectives ... 160
8. The "Moonshot Paradigm" or why did we start all over again? ... 161
III. The future of Contract Management is Legal Content Management ... 161
1. Information-Enable the Legal Department! ... 161
2. The impact on the development of future SAP solutions? ... 163
IV. Conclusion ... 165

D. Workflow Automation *(Rackwitz/Corveleyn)* ... 166
I. Developments in the legal field ... 166
II. What does workflow digitisation mean? ... 167
III. Concrete example: Corporate Housekeeping ... 167
IV. Challenges ... 170
1. Challenge no. 1: Who is interested in workflow efficiency? ... 170
2. Challenge no. 2: Rebundling/point solutions ... 170
3. Challenge no. 3: Change management and individual understanding of roles ... 170
4. Challenge no. 4: regulatory hurdles ... 171
V. Outlook ... 171

E. Digitalization of International Contracting Practices *(Magrini/Blase)* ... 172
I. Introduction ... 172
II. Business Requirements ... 173
1. Cost Pressure ... 173
2. Reliability and Quality of Process ... 174
3. Multinationality: Different Languages, Different Jurisdictions ... 174
4. Market Volatility ... 174
5. Flexibility ... 174
III. Requirements of Legal Departments, illustrated with a Best Practice Example: Heraeus Group ... 175
1. Drivers of Change in Legal Departments ... 175
2. Different Digitalizations and Their Importance for Law Departments ... 175
3. Increasing Expectations of Legal Departments in Terms of Digitalization ... 175
IV. Working with Lawforce ... 176
1. Lawforce Generator: Contract Drafting Internationally ... 177
2. Approval Tool: Approval and Risk Management System ... 177
3. Review Function: Support for End-to-End Quality Checks ... 178
V. Outlook ... 179

Part 5: The Ecosystem ... 181

A. LegalZoom: Fighting the A2J Crisis *(Hartman/Rampenthal)* ... 181
I. Introduction ... 181
II. A Mission Under Threat ... 181
III. Identifying the Legal Access Gap ... 183
IV. A New, Old Hope for the Profession ... 185
V. Staying on the Journey ... 187

B. Legal Publishers, Legal Technology, and the New Legal Landscape *(Curle)* ... 189
I. Prelude: HOW is the New WHAT ... 189
II. From Information to Action ... 190
III. The Structure of a Top-Heavy Industry ... 190
IV. The Big Three: Consolidation, and the Shift from Content to Solutions ... 192
1. 20th Century Consolidation: Content, content, content ... 192
2. 21st Century Consolidation: From Content to Legal Solutions ... 193
V. The Market Begins to Recognize this Move Beyond Content ... 194
VI. Advantages and Challenges: Legal Publishers as Solutions Providers ... 195
1. Challenges ... 195
2. Opportunities ... 195
VII. Future Outlook ... 196

C. Legal Tech Education at Bucerius Law School *(D. Hartung)* ... 197
I. The vision ... 197
II. The set-up ... 197
III. A journey of discovery through the United States ... 198
IV. From theory to practice ... 199
V. Our MVP – Legal Technology Showcase Lecture ... 200
VI. Rapid Prototyping – Coding 4 Lawyers, Algorithmic Decision Making and Programming Languages in Law ... 200
VII. Where we are today ... 201
VIII. The Way Ahead ... 202

D. The Paris Bar Incubator: a Story of Breaking New Boundaries *(Damelet/Smatt Pinelli/Blanc)* ... 203
I. Introduction ... 203
II. The Founding of the Paris Bar Incubator ... 203
III. The Centers of Interest: The Clusters ... 204
1. The "Communication" Cluster ... 205
2. The "International and European" Cluster ... 205
3. The "Justice" Cluster ... 205
4. The "Deontology" Cluster ... 205
5. The "Recognition and Award " Cluster ... 205

6. The "Economic Forecasting" Cluster 205
7. The "Prospective Identity" Cluster 206
IV. Moving on 206

E. Transforming Lawyer-Client Collaboration and Creating Lasting Change Through LawWithoutWalls *(DeStefano/Pagano)* 207

I. New Focus on How Lawyers Provide Service 207
II. LawWithoutWalls: Transforming How Lawyers Collaborate with Clients 210

F. Measuring Innovation to Drive Change and Improve Legal-Services Delivery and Access for Everyone *(Linna)* 213

I. Introduction 213
II. How to Construct a Measure of Innovation? Apply Proven Innovative Processes 213
III. Launching the Law Firm Innovation Catalog and the Law Firm Innovation Index 214
IV. Transparency, Accountability, and Driving Change 214
V. Time to Get Rigorous: From Anecdotes and Intuitions to Data 215
VI. What Does True Innovation Look Like? 216
VII. The Legal Services Innovation Index is NOT a Ranking 217
VIII. The Law Firm Innovation Catalog 217
1. Categorizing the Innovations 217
2. Discipline or Tool Driving the Innovation 217
3. Area of Law 218
4. Catalog by Law Firm 219
IX. Law Firm Innovation Index 220
1. Law Firm Websites Searched for Hits on Innovation Terms 221
2. Innovation Categories and Search Terms 221
3. Hits by Innovation Category 222
4. Average Hits by Jurisdiction – Firms Grouped 222
5. Hits by Individual Law Firms – Percentile Order 223
X. Law School Innovation Index – November 2, 2017 Prototype 223
1. Legal-Service Delivery Disciplines Taught in JD Courses 224
2. "Law and Technology" Topics Taught in JD Courses 224
3. Number of Legal-Services Delivery Disciplines Taught By School 225
4. Legal-Services Delivery Innovation and Technology Disciplines Taught 226
5. "Law and Technology" Courses Taught 226
6. Innovative Law School Programs by Type 227
7. Summary of Law School Legal-Services Delivery Programs by School 227

G. Litigation Funding and Predictive Analytics *(Kohlmeier)* 228

I. Litigation Funding 228
1. A short introduction to Litigation Funding 228
2. Internal Processes 228
II. Predictive Analytics 229
1. A short introduction to Predictive Analytics 229
2. Problems and approaches to solving them 230
III. Already foreseeable and future effects on the business models of Litigation Funders – and the Legal Market in general 231
1. Turning Risk into Value? 231

H. Online Dispute Resolution – ODR *(Braegelmann)* 233

I. Introduction: Which Way to the Online Court? 233
II. The Growing Prevalence of Online Dispute Resolution 235
III. The ODR Model Law of the UN 235
IV. Online Dispute Resolution in Practice – Current Examples for ODR 235
V. The EU as a legal pioneer in ODR legislation 237
1. Background 237
2. The OS-Plattform of the EU 237
3. ODR implementation with the German Consumer Dispute Resolution Act 238
4. Assessment of the EU's ODR Legislation 239
VI. Computer-assisted structuring of litigation and jurisdiction and its impact on the legal profession 239

VII. Judicial Online Dispute Resolution (JODR): The Online Court ... 242
1. The Briggs-Report on the Online Court ... 242
2. Concerns about online courts, especially from the point of view of the German legal system ... 244
VIII. Final Thoughts: Online dispute resolution as a legal policy challenge ... 245

Part 6: Technology ... 249

A. How to Build a Robot Lawyer *(Grupp)* ... 249
I. The time for legal Automation ... 249
II. Use Case Example: Compliance Checks ... 250
1. Background and Tasks ... 250
2. Objective ... 250
3. Implementation: an Interactive Compliance Checker ... 251
III. Use Case Example: Remuneration Agreement Check ... 251
1. Background and Objectives ... 251
2. Implementation ... 251
IV. Additional Use Cases ... 252
V. Legal automation: well-known technology in a new field of application ... 253
VI. The status quo in legal automation: rules vs. data ... 255
1. Inductive approach: statistical systems ... 255
2. Deductive approach: rule-based systems ... 256
3. Working with *RYTER* ... 257

B. Document Automation *(Halbleib)* ... 258
I. Applications of Document Automation ... 258
II. How Document Automation Works ... 259
1. Preparing Templates for Automation ... 259
2. Using Automated Templates: Input of Data ... 261
3. Using Automated Templates: Migrating data from other systems ... 262
III. Implementation ... 263
IV. Outlook on Further Possible Applications ... 264

C. Artificial Intelligence in Law *(Bues)* ... 265
I. Unpacking AI ... 266
1. Weak and strong AI ... 266
2. AI as a bundle of methods and techniques ... 267
a) Machine Learning ... 267
b) Natural Language Processing ... 268
II. Legal AI: use cases ... 268
1. Legal Databases ... 269
2. E-Discovery ... 269
3. Legal Analytics ... 269
4. Document Analysis ... 270
5. Conclusion ... 271
III. Challenges and risks of AI ... 271
1. AI is a development process ... 271
2. Data: hidden treasures ... 272
3. AI: a black box? ... 272
IV. Outlook ... 272
1. Automation by AI ... 273
2. Augmentation by AI ... 273
3. Personal knowledge and software knowledge ... 273
4. Data is gold ... 273
5. Competition with other providers ... 274
6. New legal teams ... 274
7. Conclusion ... 274

D. Blockchain – A New Foundational Technology in Law? *(Glatz)* ... 275
I. Introduction ... 275
II. Digital Property and Digital Scarcity ... 277
III. Consensus Mechanisms ... 278

IV. Smart Contracts ... 279
V. Applications and Examples ... 280
VI. Outlook ... 281

E. Smart Contracts for Modern Lawyers *(Braegelmann/Kaulartz)* ... 283
I. Introduction ... 283
II. Practical Examples ... 285
1. The Decentralized Autonomous Organization ... 285
2. Initial Coin Offerings ... 285
3. Flight delay damages ... 286
4. Leases ... 286
5. World Food Programme ... 286
6. Financial Transactions ... 286
7. Insurance ... 286
8. Decentralized Trading ... 286
III. Legal qualification of smart contracts ... 287
IV. Conclusion ... 288

Part 7: Country Reports Legal Tech ... 289
A. Legal Tech in Africa *(Freitas)* ... 289
I. Law in Africa ... 289
1. Legal traditions are manifold in each African country, but opportunities for innovation are abundant ... 289
2. Some figures on the African legal environment ... 290
a) Number of lawyers per capita ... 290
b) Legal Open Data ... 290
c) The Rate of formalization of entrepreneurial activity ... 290
II. Legal Tech in Africa ... 290
1. A growing ecosystem, particularly active in English-speaking Africa ... 290
2. Foresight on Legal Tech in Africa ... 293
a) Why could Africa become the continent of Legal Tech? ... 293
b) Difficulties to overcome ... 294
III. Conclusion ... 294

B. Legal Tech in Australia *(Ghiassi)* ... 295
I. A Long History of Innovation ... 295
II. Australian Law Firms Turning to Technology ... 296
III. Australian Technology Companies Providing Legal Services ... 297
IV. A Growing Legal Tech Ecosystem ... 298
V. Conclusion ... 299

C. Legal Tech in Austria *(Martinetz)* ... 300
I. Introduction ... 300
II. Legal Tech Environment ... 300
III. Legal-tech Initiatives ... 301
IV. Legal Tech Providers and Start-Ups ... 302
1. Legal Tech for Consumers ... 303
2. Legal databases ... 303
3. Platforms from Lawyers to Lawyers ... 303
4. Legal Research Tools ... 303
5. Smart Contracts ... 303
6. Law for students ... 303
7. Blockchain technology ... 303
8. Legal Tools ... 304
V. Legal Tech Outlook in Austria ... 304

D. Legal Tech in Brazil *(Toco)* ... 305
I. Introduction ... 305
II. Legal Tech market growth ... 305
III. Brazil LegalTech environment and regulation ... 306

IV. Legal Tech Radar ... 306
V. Success cases and the way forward ... 308

E. Legal Tech in Canada – Between Global Hotspot and Northern Sandbox *(Blase)* ... 309
I. Toronto: The Past and The Future Co-exist ... 309
II. Of Law Societies, Bar Associations & Attorney Generals ... 310
III. British Columbia & Quebec: Public Sector Legal Tech ... 311
IV. Alberta: Academic Trailblazers ... 311
V. Legal Tech Start-ups ... 312

F. Legal Tech in China *(Wang)* ... 313
I. Introduction ... 313
II. Overview of Legal Tech Players ... 313
III. Highlights of Legal Tech in Practice ... 313
IV. Challenges and Opportunities ... 314

G. Legal Tech in Estonia *(Nõlv)* ... 315
I. ExtendLaw ... 315
II. Avokaado ... 315
III. Environment ... 316

H. Legal Tech in Finland *(Koulu/Markkanen)* ... 317
I. Introduction ... 317
II. Legal Tech Scene in Finland ... 318
III. Providers ... 320
IV. Regulatory environment ... 320

I. Legal Tech in France *(Aïdan)* ... 322
I. The Rise of French Online Legal Services Providers ... 322
1. Document Automation and French B2C "LSaaS" Apps ... 322
2. Online Dispute Resolution Solutions ... 323
3. Online Legal Matching Services ... 324
4. B2B Tech Solutions ... 324
5. The Digital Transformation of French Legal Community ... 325
II. Regulatory Constraints and Other Challenges for the French Legal Tech ... 325
1. French UPL Issues ... 326
2. French Legal Tech and Ethics Compliance ... 326
III. Conclusion ... 327

J. Legal Tech in Germany – Between Buzz Word and "Anwaltsschreck" *(Barth)* ... 328
I. Controlling the legal tech chaos ... 328
II. The German way: Look, test, wait ... 329
III. Heroes of the little man ... 329
IV. Strategies in "Big Law" ... 330
V. The new mantra: added value ... 331
VI. Are companies the better innovation drivers? ... 332

K. Legal Tech in India *(Bhagat)* ... 334
I. Legal Research ... 334
II. Access to Justice ... 334
III. Legal Tech is just beginning ... 334
IV. Investments in Legal Tech ... 335
V. Legal Tech Marketplaces ... 335
VI. Regulation ... 335
VII. Conclusion ... 336

L. Legal Tech in Israel *(Fisher)* ... 337
I. Legal Tech scene in Israel ... 337
II. Legal Tech Providers in Israel ... 338
1. Start-ups ... 338
2. Legal tech consultants ... 338
3. Law firms ... 339
