<i>Notes on the Contributors</i>	xi
 1. Introduction: a social perspective on how language began <i>Daniel Dor, Chris Knight, and Jerome Lewis</i>	 1
 Part I. Theoretical Foundations	
 2. Why we need to move from gene-culture co-evolution to culturally driven co-evolution <i>Daniel Dor and Eva Jablonka</i>	 15
 3. Niche construction and semiosis: biocultural and social dynamics <i>Chris Sinha</i>	 31
 4. Signal evolution and the social brain <i>Camilla Power</i>	 47
 5. How can a social theory of language evolution be grounded in evidence? <i>Sverker Johansson</i>	 56
 Part II. Language as a Collective Object	
 6. The 'poly-modalic' nature of utterances and its relevance for inquiring into language origins <i>Adam Kendon</i>	 67
 7. BaYaka Pygmy multi-modal and mimetic communication traditions <i>Jerome Lewis</i>	 77
 8. Language presupposes an enchronic infrastructure for social interaction <i>N. J. Enfield and Jack Sidnell</i>	 92
 9. The instruction of imagination: language and its evolution as a communication technology <i>Daniel Dor</i>	 105

Part III. Apes and People, Past and Present

10. Chimpanzee grooming gestures and sounds: what might they tell us about how language evolved? 129
Simone Pika
11. Vocal communication and social awareness in chimpanzees and bonobos 141
Zanna Clay and Klaus Zuberbühler
12. Why humans and not apes: the social preconditions for the emergence of language 157
Charles Whitehead
13. Language and collective fiction: from children's pretence to social institutions 171
Emily Wyman
14. The time frame of the emergence of modern language and its implications 184
Dan Dediu and Stephen C. Levinson
15. The evolution of ritual as a process of sexual selection 196
Camilla Power
16. The red thread: pigment use and the evolution of collective ritual 208
Ian Watts
17. Language and symbolic culture: an outcome of hunter-gatherer reverse dominance 228
Chris Knight

Part IV. Social Theories of Language Evolution

18. The co-evolution of human intersubjectivity, morality, and language 249
Jordan Zlatev
19. Forever united: the co-evolution of language and normativity 267
Ehud Lamm
20. Why talk? 284
Jean-Louis Dessalles
21. Vocal deception, laughter, and the linguistic significance of reverse dominance 297
Chris Knight and Jerome Lewis

Part V. The Journey Thereafter

22. Memory, imagination, and the evolution of modern language	317
<i>Simona Ginsburg and Eva Jablonka</i>	
23. Transmission biases in the cultural evolution of language: towards an explanatory framework	325
<i>N. J. Enfield</i>	
24. Breaking down false barriers to understanding	336
<i>Luc Steels</i>
