

# Contents

Preface and acknowledgements . . . . .	14
1. Introduction . . . . .	15
1.1. Purpose and scope of the study . . . . .	15
1.2. Structure of the study . . . . .	16
2. The study area . . . . .	17
2.1. Geographical setting . . . . .	17
2.2. Geological-geomorphological structure . . . . .	18
2.3. Landscape units . . . . .	19
2.3.1. Qattara-Siwa . . . . .	20
2.3.2. Great Sand Sea . . . . .	21
2.3.3. Abu Ballas Region . . . . .	22
2.3.4. Gilf Kebir . . . . .	23
2.3.5. Jebel Haruj . . . . .	24
3. Climate and environment during the Terminal Pleistocene and Early Holocene in Northeast Africa . . . . .	25
3.1. Terminal Pleistocene . . . . .	25
3.2. Early Holocene . . . . .	26
4. Review of the Terminal Pleistocene and Early Holocene archaeological record of Northeast Africa . . . . .	28
4.1. Time and terminology . . . . .	28
4.2. Origins of backed bladelet industries . . . . .	29
4.3. Nile Valley . . . . .	31
4.3.1. Terminal Pleistocene industries, subsistence, and land-use . . . . .	31
4.3.1.1. The 25 <sup>th</sup> –21 <sup>st</sup> millennia cal BP (Fakhurian, Kubbaniyan, Dabarasan, Gemaian, Halfan, Idfuan) . . . . .	31
4.3.1.2. The 20 <sup>th</sup> –17 <sup>th</sup> millennia cal BP (Ballanan-Silsilian, Sebekian) . . . . .	36
4.3.1.3. The 17 <sup>th</sup> –14 <sup>th</sup> millennia cal BP (Afian, Sebilian, Qadan, Isnan, Menchian) . . . . .	36
4.3.1.4. The 13 <sup>th</sup> –11 <sup>th</sup> millennia cal BP (Arkinian) . . . . .	41
4.3.2. Early Holocene industries, subsistence, and land-use . . . . .	43
4.3.2.1. The 10 <sup>th</sup> millennium cal BP (Shamarkian) . . . . .	43
4.3.2.2. The 10 <sup>th</sup> –9 <sup>th</sup> millennia cal BP (Elkabian) . . . . .	43
4.4. Cyrenaica . . . . .	46
4.4.1. Terminal Pleistocene industries, subsistence, and land-use . . . . .	46
4.4.2. Early Holocene industry, subsistence, and land-use . . . . .	47
4.5. Eastern Sahara . . . . .	48
4.5.1. Terminal Pleistocene considerations . . . . .	48
4.5.2. Early Holocene industries, subsistence, and land-use . . . . .	49
4.5.2.1. The 11 <sup>th</sup> millennium cal BP (El Adam, Qarunian, Regenfeld A, Masara, Midauwara) . . . . .	49
4.5.2.2. The 10 <sup>th</sup> and 9 <sup>th</sup> millennia cal BP (El Ghorab, Regenfeld B and C, El Nabta, Siwan, Masara, Bedouin Microlithic, Libyan) . . . . .	51
4.5.3. Early Holocene pottery . . . . .	55

4.6.	Summary of Terminal Pleistocene and Early Holocene lithic technology and typology	56
4.7.	Summary of Terminal Pleistocene and Early Holocene subsistence and land-use	57
4.8.	Conclusion	58
5.	Methodology	60
5.1.	Selection of sites	60
5.2.	Excavation and analysis	60
5.2.1.	Methods of excavation	60
5.2.2.	Analysis of knapped lithic artefacts	61
5.3.	<i>Chaîne opératoire</i>	62
5.4.	Raw material procurement	62
5.5.	Potential Epipalaeolithic site types	63
5.5.1.	Number of occupations and the palimpsest problem	63
5.5.2.	Duration of occupation	63
5.5.3.	Activities and assemblage diversity	64
5.5.4.	Potential site types and functions	66
5.6.	Structure of site presentation	66
6.	Data and analysis: Epipalaeolithic sites of five Eastern Saharan research areas	68
6.1.	Sitra (Qattara-Siwa)	68
6.1.1.	Sitra 83/11-1	68
6.1.1.1.	Excavation and analysis	68
6.1.1.2.	Features	69
6.1.1.3.	Finds	70
6.1.1.4.	Faunal and floral remains	74
6.1.1.5.	Dating	74
6.1.1.6.	Interpretation	74
6.1.2.	Sitra 83/12	76
6.1.2.1.	Excavation and analysis	76
6.1.2.2.	Features	76
6.1.2.3.	Finds	76
6.1.2.4.	Faunal and floral remains	80
6.1.2.5.	Dating	80
6.1.2.6.	Interpretation	80
6.1.3.	Sitra 85/5-4	82
6.1.3.1.	Excavation and analysis	82
6.1.3.2.	Features	86
6.1.3.3.	Finds	86
6.1.3.4.	Faunal and floral remains	93
6.1.3.5.	Dating	94
6.1.3.6.	Interpretation	95
6.1.4.	Complementary sites in the Sitra area	96
6.1.5.	Hearth-mounds of the Sitra area	98
6.2.	Ain Dalla and Abu Minqar (Great Sand Sea)	100
6.2.1.	Ain Dalla 85/16	101
6.2.1.1.	Excavation and analysis	101
6.2.1.2.	Features	103
6.2.1.3.	Finds	103
6.2.1.4.	Faunal and floral remains	106
6.2.1.5.	Dating	106

	6.2.1.6.	Interpretation . . . . .	106	
6.2.2.	Ain Dalla 85/19 . . . . .		107	
	6.2.2.1.	Excavation and analysis . . . . .	107	
	6.2.2.2.	Features . . . . .	109	
	6.2.2.3.	Finds . . . . .	109	
	6.2.2.4.	Faunal and floral remains . . . . .	112	
	6.2.2.5.	Dating . . . . .	112	
	6.2.2.6.	Interpretation . . . . .	112	
6.2.3.	Abu Minqar 85/25 . . . . .		113	
	6.2.3.1.	Excavation and analysis . . . . .	113	
	6.2.3.2.	Features . . . . .	113	
	6.2.3.3.	Finds . . . . .	114	
	6.2.3.4.	Faunal and floral remains . . . . .	116	
	6.2.3.5.	Dating . . . . .	116	
	6.2.3.6.	Interpretation . . . . .	116	
6.2.4.	Abu Minqar 85/26 . . . . .		117	
	6.2.4.1.	Excavation and analysis . . . . .	117	
	6.2.4.2.	Features . . . . .	117	
	6.2.4.3.	Finds . . . . .	118	
	6.2.4.4.	Faunal and floral remains . . . . .	120	
	6.2.4.5.	Dating . . . . .	120	
	6.2.4.6.	Interpretation . . . . .	121	
6.2.5.	Abu Minqar 85/28-1 . . . . .		123	
	6.2.5.1.	Excavation and analysis . . . . .	123	
	6.2.5.2.	Features . . . . .	123	
	6.2.5.3.	Finds . . . . .	124	
	6.2.5.4.	Faunal and floral remains . . . . .	131	
	6.2.5.5.	Dating . . . . .	131	
	6.2.5.6.	Interpretation . . . . .	132	
6.2.6.	Complementary sites in the Abu Minqar area . . . . .		133	
6.2.7.	Hearth-mounds in the Abu Minqar area . . . . .		134	
6.3.	Westpans (Abu Ballas Region) . . . . .		135	
	6.3.1.	Westpans 85/52 . . . . .	135	
		6.3.1.1.	Excavation and analysis . . . . .	135
		6.3.1.2.	Features . . . . .	137
		6.3.1.3.	Finds . . . . .	137
		6.3.1.4.	Faunal and floral remains . . . . .	139
		6.3.1.5.	Dating . . . . .	140
		6.3.1.6.	Interpretation . . . . .	140
6.4.	Wadi el Akhdar (Gilf Kebir) . . . . .		142	
	6.4.1.	Wadi el Akhdar 80/33-2 . . . . .	142	
		6.4.1.1.	Excavation and analysis . . . . .	142
		6.4.1.2.	Features . . . . .	145
		6.4.1.3.	Finds . . . . .	145
		6.4.1.4.	Faunal and floral remains . . . . .	151
		6.4.1.5.	Dating . . . . .	151
		6.4.1.6.	Interpretation . . . . .	151
6.5.	Dora (Jebel Haruj) . . . . .		152	
	6.5.1.	Dora 42/8 . . . . .	152	
		6.5.1.1.	Excavation and analysis . . . . .	152

6.5.1.2.	Features . . . . .	155
6.5.1.3.	Finds . . . . .	156
6.5.1.4.	Faunal and floral remains . . . . .	164
6.5.1.5.	Dating . . . . .	165
6.5.1.6.	Interpretation . . . . .	165
7.	Context . . . . .	167
7.1.	Technological comparison . . . . .	167
7.1.1.	Blank production . . . . .	167
7.1.2.	Long blades . . . . .	168
7.2.	Typological comparison . . . . .	170
7.2.1.	Data collection . . . . .	170
7.2.2.	Principal component analysis and temporal trends in lithic tools . . . . .	171
7.3.	Dating and chronology . . . . .	175
8.	Reconstruction of Epipalaeolithic land-use patterns . . . . .	180
8.1.	Epipalaeolithic site types . . . . .	180
8.1.1.	Artefact density vs. tool frequency . . . . .	180
8.1.2.	<i>Chaîne opératoire</i> . . . . .	180
8.1.3.	Tool assemblage diversity . . . . .	183
8.1.4.	Task applications . . . . .	185
8.1.5.	Site types . . . . .	185
8.2.	Epipalaeolithic land-use organisation in the Eastern Sahara . . . . .	188
8.2.1.	Chorological distinctions . . . . .	188
8.2.2.	Chronological distinctions . . . . .	190
8.2.3.	A model of changing land-use organisation . . . . .	190
8.3.	Summary . . . . .	192
9.	The Epipalaeolithic colonisation of the Eastern Sahara: Conclusions . . . . .	194
9.1.	<i>When?</i> – Temporal patterns . . . . .	194
9.2.	<i>Whence?</i> – Origins . . . . .	196
9.3.	<i>Why?</i> – Motivations to move and the question of migration . . . . .	199
9.4.	<i>How?</i> – Mechanisms of colonisation . . . . .	199
9.5.	Outlook: Open questions and future prospects . . . . .	202
10.	Summaries . . . . .	204
10.1.	Summary . . . . .	204
10.2.	Zusammenfassung . . . . .	205
10.3.	Zusammenfassung auf Arabisch . . . . .	207
	References . . . . .	209
	Photo and drawing credits . . . . .	226
	Plates . . . . .	227
	Appendices . . . . .	290
