Contents

Preface *page* ix

1 Overview 1
- 1.1 The scope of the theory 1
- 1.2 Social situations 2
- 1.3 Acceptable recommended outcomes 2
- 1.4 Merits of the theory of social situations 3
- 1.5 The organization of the book 7

2 The theory of social situations 9
- 2.1 Situations 9
- 2.2 Standards of behavior 14
- 2.3 Stability 15
- 2.4 OSSB and CSSB 17
- 2.5 Preliminary observations 21
- 2.6 ϵ-stability 23

Proofs for Chapter 2 25

3 Examples 27

4 Abstract stable sets 36
Proofs for Chapter 4 41

5 Existence and uniqueness of OSSB and CSSB 43
- 5.1 Hierarchical situations 43
- 5.2 Uniqueness of OSSB 46
- 5.3 Existence of a unique OSSB 51
- 5.4 Existence and uniqueness of CSSB 54

Proofs for Chapter 5 57

6 Characteristic function form games 62
- 6.1 The core situation 64
- 6.2 The vN&M situation 70
- 6.3 The core and the vN&M solution 73
- 6.4 The ϵ-Core 75
- 6.5 The stable bargaining set situation 75

Proofs for Chapter 6 79

7 Normal form games 87
7.1 The Nash situation 88
7.2 The coalition-proof Nash situation 90
7.3 The strong Nash situation 96
7.4 Individual contingent threats 97
7.5 Coalitional contingent threats 102
7.6 Individual commitments 106
7.7 Coalitional commitments 109
Proofs for Chapter 7 111

8 Extensive form games with perfect information 118
8.1 The tree situation 122
8.2 CSSB for the tree situation 125
8.3 OSSB for the tree situation 130
8.4 The coalitional tree situation 136
Proofs for Chapter 8 139

9 Infinitely repeated games 146
9.1 The repeated game Nash situation 146
9.2 Nondiscrimination 148
9.3 PEP is the maximal nondiscriminating CSSB 149
9.4 The coalitional repeated game situation 152
Proofs for Chapter 9 154

10 Implementation by means of situations 157
10.1 Strong positive association 161
Proofs for Chapter 10 163

11 Closing remarks 166
11.1 Equilibria versus recommendations 166
11.2 Design of institutions 167
11.3 Human rationality 167
11.4 Lotteries 169
11.5 Preferences over subsets of outcomes 171
11.6 Individual stability 172
11.7 Nonemptiness of OSSB and of CSSB 172
11.8 F-stability 173
11.9 Incomplete and intransitive preferences 174
11.10 Epilogue 174
Proofs for Chapter 11 175
