<b>Acknowledgments .....</b>	9
<b>Abbreviations .....</b>	11
<b>Figures and Tables .....</b>	13
<b>1. Introduction.....</b>	15
Relevance of the study and literature.....	16
The need for an ecological context.....	18
Research questions.....	20
Outline of the book .....	22
<b>2. Malaria: A brief overview.....</b>	25
Global Perspective .....	27
The parasite's life cycle .....	30
The interplay of humans, mosquitoes, and parasites.....	32
Malaria in numbers.....	34
Progression of the disease .....	40
Malaria testing and treatment of clinical malaria.....	43
Malaria treatment.....	44
Local understandings of malaria .....	45
Plurality of meanings, syncretic models.....	46
Perceptions of malaria: a "killer disease"?.....	48
<b>3. Ethnographic research in Uganda: Language and ethics in the field.....</b>	51
Initial considerations .....	52
Interdisciplinary research projects and their methodological implications.....	54
Qualitative research in a foreign research setting: the issue of language.....	55
Working with an interpreter.....	57

Hiring an assistant .....	63
Doing research, constructing the field .....	65
Positionality: A German researcher in Uganda .....	69
Doing research in a health facility .....	74
<b>4. Kampala's urban fringe:</b>	
<b>Socio-economic dynamics and transformations .....</b>	<b>79</b>
Central Uganda .....	79
Infrastructure .....	84
The Namulonge Research Farm .....	86
Wetlands .....	88
Land ownership and land use .....	90
Structural adjustment: the 1998 Uganda Land Act .....	91
Colonial legacies: the introduction of mailo land .....	92
Mailo land in Namulonge .....	96
Health in local context .....	97
Health care in Uganda .....	97
<b>5. Providing malaria treatment:</b>	
<b>Different forms of healthcare in Uganda .....</b>	<b>101</b>
Self-medication and individualized conceptions of health .....	109
Mapping healthcare .....	112
Healthcare in Uganda: Historical Perspective .....	114
Formalized healthcare .....	117
Informal healthcare .....	119
<b>6. Coping with malaria: Facets of health seeking .....</b>	<b>129</b>
Costs of biomedical malaria treatment .....	134
Malaria treatment outside the biomedical arena .....	138
Peter .....	141
Gerald .....	146
Mukyala Nakakande .....	149
<b>7. Agriculture in the urban fringe:</b>	
<b>The ambivalent role of wetlands .....</b>	<b>155</b>
Wetland agriculture and mosquitoes .....	155
Malaria and Agriculture .....	157
Wetlands as economic resource .....	160
Wetland mining .....	163
Fisheries .....	165
Malaria and agriculture: local perceptions .....	167

Malaria campaigns and wetland agriculture .....	169
Wetlands as a last resort .....	170
The ambivalent character of wetlands .....	178
<b>8. Conclusion .....</b>	<b>181</b>
Outlook .....	186
<b>References.....</b>	<b>191</b>
