Preface and acknowledgements	page vi
Acronyms and glossary	vii
Contributors	xiii
<b>1 Introduction</b>	<b>1</b>
<i>Tim Unwin</i>	
Aims and objectives	2
Organisation and structure	3
<b>Part 1: Contextual framework</b>	<b>7</b>
<b>2 Development agendas and the place of ICTs</b>	<b>7</b>
<i>Tim Unwin</i>	
Development agendas	7
Case study: 'Across the wires th' electric message came, "He is no better; he is much the same"' ( <i>Richard Manning</i> )	12
Information and knowledge societies	19
Technological interests and social change	30
<b>3 Information and communication in development practices</b>	<b>39</b>
<i>Tim Unwin</i>	
Information and communication in development	40
Information in development practice	53
Effective communication in development practice	61
Access, understanding and relevance	69
<b>4 The technologies: identifying appropriate solutions for development needs</b>	<b>76</b>
<i>Tim Unwin</i>	
ICTs: a conceptual framework	77
The capture and storage of information	82
Case study: The Greenstone Digital Library Software ( <i>Ian H. Witten and David Bainbridge</i> )	84
Case study: The internet of things ( <i>Marco Zennaro</i> )	88
The physical infrastructure	92
Case study: Radio for education ( <i>David Hollow</i> )	102
User interfaces and information sharing	104

Individuals and communities: debates over software and content	114
Conclusions	119
<b>5 ICT4D implementation: policies and partnerships</b>	<b>125</b>
<i>Tim Unwin</i>	
Global ICT4D initiatives	126
Case study: The World Summit on the Information Society – a reflection ( <i>Mohamed Abida</i> )	142
Case study: Telecentre 2.0. What's next? Almost anything ( <i>Mark Surman</i> )	146
ICT4D national policies and strategies	150
Case study: ICT and education strategies in the Pacific ( <i>Michael Trucano</i> )	156
Multi-stakeholder partnerships and the implementation of ICT4D initiatives	159
Case study: LifeLines India ( <i>Melissa Gabriel and Adrian Godfrey</i> )	162
Delivering effective ICT4D partnerships	170
<b>Part 2: Practical applications</b>	<b>177</b>
<b>6 ICTs, enterprise and development</b>	<b>177</b>
<i>Michael L. Best and Charles Kenny</i>	
ICT industries and ICT use	177
ICTs and economic development	179
Case study: Telecoms in post-conflict Afghanistan and Liberia ( <i>Michael L. Best and Charles Kenny</i> )	182
The scale of ICT use in the developing world	185
The macroeconomic impact of use	188
The microeconomic impact of use	189
Success factors for ICT use	196
Case study: Chilean ICT policies and micro-entrepreneurs ( <i>Dorothea Kleine</i> )	198
<b>7 ICT in education: catalyst for development</b>	<b>206</b>
<i>Michelle Selinger</i>	
Introduction	206
Education in developing countries	208
Developing and implementing new educational models	217
Case study: ICT and education in Rwanda ( <i>Alphonse Uworwabayeho, Jolly Rubagiza, Edmond Were, and Rosamund Sutherland</i> )	228
Case study: EU-China GBEP – an ICT-supported system for school-based professional development ( <i>Bernadette Robinson</i> )	230
External involvement in enhancing educational delivery	238
Conclusions	242

<b>8 E-health: information and communication technologies for health</b>	<b>249</b>
<i>S. Yunkap Kwankam, Ariel Pablos-Mendez and Misha Kay</i>	
Introduction	249
Definitions of e-health	251
Historical development of e-health	252
The contemporary e-health landscape	254
Assessing the impact of e-health	271
Limitations of e-health	274
The future of e-health	275
Conclusions	276
<b>9 E-government and e-governance</b>	<b>283</b>
<i>James Guida and Martin Crow</i>	
Introduction	283
E-government: its evolution and its challenges	284
The technologies	289
Case study: Local e-government services: Takalar, Indonesia ( <i>Martin Crow</i> )	294
E-governance as management of IT implementations in government	296
E-governance as transformation of the relationship of government to citizens in an information society	306
Key issues in formulating a development- and reform-based e-governance strategy	310
Conclusions	316
<b>10 Information and communication technologies for rural development</b>	<b>321</b>
<i>Bob Day and Peter Greenwood</i>	
Introduction	321
Stakeholder issues	323
ICTs for rural development: beginnings	327
Emerging possibilities	335
Case study: The hole in the wall, or minimally invasive education ( <i>Sugata Mitra</i> )	340
ICT4RD: some future scenarios	346
ICTs, knowledge management and a new shared vision for rural development	351
<b>11 Conclusions</b>	<b>360</b>
<i>Tim Unwin</i>	
ICTs and development practices	360
Principles for effective ICT4D implementation	363
Towards a more effective global ICT4D agenda	369
Case study: Empowering youth in Jenin ( <i>Jonatan Stanczak, Ziad El-Khatib and Mohammad Moawia</i> )	372
<b>Index</b>	<b>376</b>
