

CONTENTS

Acknowledgements	vii
Introduction	1
Section A: The significance of visualization in science education	7
1. Visualization: A metacognitive skill in science and science education <i>John K. Gilbert</i>	9
2. Prolegomenon to scientific visualization <i>Barbara Tversky, Stanford University, USA</i>	29
3. Mental Models: Theoretical issues for visualizations in science education <i>David Rapp, University of Minnesota, USA</i>	43
4. A model of molecular visualization <i>Michael Briggs, George Bodner</i>	61
5. Leveraging technology and cognitive theory on visualization to promote students' science learning and literacy <i>Janice D Gobert</i>	73
Section B: Developing the skills of visualization	91
6. Teaching and learning with three-dimensional representations <i>Mike Stieff, Robert Bateman, David Uttal</i>	93
7. Modelling students becoming chemists: Developing representational competence <i>Robert Kozma, Joel Russell</i>	121
8. Imagery in physics: From physicists' practice to naive students' learning <i>Galit Botzer, Miriam Reiner</i>	147

9.	Imagery in science learning in students and experts <i>John Clement, Aletta Zietsman, James Monaghan</i>	169
	Section C: Integrating visualization into curricula in the sciences	185
10.	Learning electromagnetism with visualization and active learning <i>Yehudit Judy Dor I, John Belcher</i>	187
11.	Teaching visualizing the science of genomics <i>Kathy Takayama</i>	217
12.	Models visualization in undergraduate geology courses <i>Stephen J Reynolds, Julia K Johnson, Michael D Pi burn, Debra E Leedy, Joshua A Coy an, Melanie M Busch</i>	253
	Section D: Assessing the development of visualization skills	267
13.	Evaluating the educational value of molecular structure representations <i>Vesna Ferk Savec, Margareta Vrtacnik, John K Gilbert</i>	269
14.	Assessing the learning from multi-media packages in chemical education <i>Joel Russell, Robert Kozma</i>	299
	Endpiece: Future research and development on visualization in science education <i>John K. Gilbert</i>	333
	Appendices to Chapter 13	337
	About the Authors	345
