<i>List of illustrations</i>	viii
<i>Preface</i>	x
<i>Foreword</i>	xii
<i>Acknowledgements</i>	xiv
1 Introduction to ethnobiology: its implications and applications	1
PART I	
Ethnoentomology	7
2 Topics and issues in ethnoentomology with some suggestions for the development of hypothesis-generation and testing in ethnobiology	9
3 Ethnoentomological survey of Brazilian Indians	23
4 Entomological considerations in south-eastern aboriginal demography	34
5 An ethnoentomological perspective of the south-eastern Indian belief system	43
PART II	
Wider applications of indigenous knowledge	51
6 The application of ethnobiology in the conservation of dwindling natural resources: lost knowledge or options for the survival of the planet	53

7	Ethnobiology and ethnodevelopment: importance of traditional knowledge and traditional peoples	63
8	Ethnoecology as applied anthropology in Amazonian development	70
9	The perception of ecological zones and natural resources in the Brazilian Amazon: an ethnoecology of Lake Coari	88
10	Diachronic ecotones and anthropogenic landscapes in Amazonia: contesting the consciousness of conservation	121
11	Indigenous knowledge, biodiversity, and international rights: learning about forests from the Kayapó Indians of the Brazilian Amazon	133

PART III

Intellectual property rights and ethical concerns 141

12	Intellectual property rights: what is the position of ethnobiology?	143
13	Indigenous knowledge and green consumerism: co-operation or conflict?	148
14	Traditional Resource Rights (TRR): <i>de facto</i> self-determination for indigenous peoples	155
15	Finders keepers won't do any more: Darrell Posey says the time has come for a rethink on bioprospecting	169
16	Indigenous peoples and Traditional Resource Rights: a basis for equitable relationships?	172
17	The 'balance sheet' and the 'sacred balance': valuing the knowledge of indigenous and traditional peoples	195

Appendices 206

1	<i>Ethnobiology</i>	206
2	<i>The Declaration of Belém</i>	208
3	<i>The Convention on Biological Diversity (extracts)</i>	210
4	<i>United Nations Draft Declaration on the Rights of Indigenous Peoples</i>	210
5	<i>The Covenant on Intellectual, Cultural, and Scientific Resources</i>	218
6	<i>Traditional Resource Rights</i>	222

-
- 7 *Summary of Principle Intellectual Property Rights Instruments* 223
 - 8 *Scientific and Professional Societies that have developed Guidelines on Intellectual Property Rights* 225
 - 9 *Research Principles for Community-controlled Research with the Tapirisat Inuit of Canada (Selected Principles)* 226
 - 10 *Kari-Oca Declaration and Indigenous Peoples Earth Charter* 226
 - 11 *Principles for 'Equitable Partnerships' established by the International Society for Ethnobiology* 235

<i>Notes</i>	237
<i>Bibliography</i>	240
<i>Index</i>	270

Illustrations

Figures

9.1	Location of Coari within Amazonia	92
9.2	Location of major resource units, Lake Coari area	93
9.3	Generalized schematic of aquatic and terrestrial/arboreal vertical levels in the Lake Coari region	97

Tables

3.1	Insect species involved in this study and their local names	24
8.1	Representative gathered plants of the tropical forest and their uses	74
8.2	Principal species of Apidae utilized by the Kayapó Indians	76
8.3	Game animals most frequently hunted by the Yekuana of southern Venezuela	79
8.4	Feed conversion ratios	80
8.5	Commonly cultivated food plants of Amazonia	82
8.6	Representative plants commonly found in reforestation sequence of 'abandoned' Kayapó fields and animals associated with each	85
9.1	Glossary of resource units as defined by a caboclo of the Lake Coari region	94
9.2	Some general characteristics of the resource units encountered in the Lake Coari region	99
9.3	Varieties of aquatic animals important to caboclo subsistence	106
9.4	Mammals important to caboclo subsistence	109
9.5	Birds important to caboclo subsistence	111
9.6	Lizards, snakes, and turtles important to caboclo subsistence	114
9.7	Knowledge of floral and faunal associations utilized in hunting and fishing	115
9.8	Fishing equipment used for various types of fish and turtles in the Lake Coari region	118
9.9	Resources used in arts, crafts, and medicinals	119

16.1	Findings and Recommendations from the Workshop held at Green College, Oxford, 28 June 1995	174
16.2	The past and present contribution of biodiversity-rich countries to humanity	179
17.1	Inadequacies of intellectual property rights	201
17.2	Some principal rights affirmed by the UN Draft Declaration on the Rights of Indigenous Peoples	202
