"In <»ur free society, people have the right to choose how they live their lives."

Pre«ident George W. Bush, June 3, 2006

So why does our government. . .

- want to censor what you. read, hear, and see?
- try to l imit your access to contraception?
- attempt to legislate "good moral values"?
- try to brainwash your kids about "abstinence"?

These are the kinds tjfcfuestions Or. Marty Klein asks—and answers—in his new book, /merica's PPjr on Sex. Vt^th hundreds of examples ripped from today's headlines, he names names, challenges political hypocrisy, and shows the financial connections between government and conservative religious groups that are systematically taking away your rights.

Savagely funny, brutally honest. Dr. Klein isn't shy about it. He demands to know—as you should demand to know—

- If 50 million Americans consume pornography, why does the government dare to regulate it without consulting any consumers? ^Jkxy do Congressmen listen to "victims of porn" but not healthy adults who use porn?
- Now that, "abstinence-only" sex education has been proven a failure, why does the government still give it \$yoo million each year? And how can most of that money go to "faith-based" groups who tell your kids how God feels about their sexual choices?
- Why do hundreds of American communities feel they have the right to eliminate legal adult entertainment, clai ming "we're not that kind of city"?
- VChy do family courts have the right to judge the private sexual habits of each parent when making custody decisions?
- How can licensed pharmacists and physicians claim they have the right to deny you legal medical care if it violates their "conscience"?

Our glorious Constitution guarantees us the widest range of rights civilization has ever seen. Vt^hy are those rights systematically damaged and repealed when it comes to sexual expression?

Is there a conspiracy to deny us **out-**sexual rights?
**No, says Marty Klein: "It's worse than a conspiracy.
It's a war. They're very open abt it. it's a War on Sex."**

It's a war that threatens the very fabric of our secular democracy. The American Taliban, our own sexual jihadists, want to replace our government with laws based on the Bible, creating a country in which "normal sex" is narrowly defined and no one has the right to alternative sexual information, health care, or personal expression.

America is fighting a war on terror to prevent the overthrow of our way of life by fanatics who want to base all law on their strict religious beliefs. It's completely unacceptable that a group of conservative Americans is trying to accomplish the same thing right here. This book shows how they're doing it -- and why we must stop them now.
