<i>List of illustrations</i>	page x
<i>Preface</i>	xvii
<i>Notes and abbreviations</i>	xxii
1 The environment	1
Geology and surface features	3
Weather and climate	13
The vegetational response	25
Soils	34
Fauna	37
2 Aboriginal peoples: settlement and culture	41
The settlement of early indian groups	44
Neo-indian cultures at the time of European contact	53
The West Indies' population in 1492	71
Effects of indian cultures on island environments: the 1492 situation	75
3 Spanish intrusion and colonisation	78
Preliminaries to Hispanic New World settlement	79
The beginnings of Hispanic New World settlement: Española to 1509	86
The peak of Spanish settlement, 1509 to 1519	105
The Hispanic West Indies in decline: the sixteenth century after 1519	121
4 Early northwest European plantations	128
Privateers and buccaneers: settlements and lifestyles	132
Overseas territorial expansion of the English, French and Dutch: preliminary considerations	135

The first plantation islands: St Kitts and Barbados	142
Expansion into other islands	169
The beginnings of North American–West Indian trade	173
The situation in 1645	174
5 Northwest European sugar estates: the formative period, 1645 to 1665	176
Establishment of sugar cane agriculture in Barbados: pre-requisites	177
The emergence and evolution of the Barbados sugar estate complex	184
Other estate cash crops	211
Socio-economic consequences of the development of the Barbados sugar estate complex	212
Environmental changes	219
Other islands	223
The situation in 1665	228
6 The extension of the West Indian sugar estate economy, 1665 to 1833. I General development and trade	232
Prerequisites for the regional extension of plantation sugar cane agriculture	234
Military conflicts	240
General trading patterns and controls of trade	258
7 The extension of the West Indian sugar estate economy, 1665 to 1833. II Sugar production, regional population growth, and the slave–white ratios	284
The regional expansion of sugar production	285
Regional population growth	304
Slave–white ratios	308
8 The extension of the West Indian sugar estate economy, 1665 to 1833. III Population: social characteristics, migration and the growth of towns	326
Social characteristics of the population	328
Regional migration patterns	375
The growth of towns	378
9 The extension of the West Indian sugar estate economy, 1665 to 1833. IV Agricultural innovation and environmental change	382
The ‘idealised’ sugar cane plantation	384
Innovation diffusion	391

Environmental change and agricultural innovation, 1665 to 1720	393
Mill innovation, 1665 to 1833	405
The intensification of cane agriculture, and further environmental changes, 1720 to 1833	423
Innovation and environment in the West Indian sugar-producing system: a summary	443
10 Post-1833 adjustments: the period to 1900	448
Population growth	456
Cane estate expansion and renewal	484
The search for new crops	501
The initiation of a West Indian peasantry	506
Environmental responses	512
Summary	515
11 Twentieth-century trends, and conclusions	518
<i>Notes</i>	540
<i>References</i>	553

Illustrations

Plates (between pp. 202 and 203)

- 1.1 Mont Pelée, Martinique
- 1.2 Terraced coral cap, Barbados
- 1.3 Yaqui del Norte, Española
- 1.4 Cockpit country, Jamaica
- 1.5 Tropical rain-forest
- 1.6 Seasonal rain-forest
- 1.7 Cactus-thorn scrub
- 1.8 Derived savanna, Nevis
- 5.1 Turner's Hall Wood, Barbados
- 10.1 Erosional forms, Haiti

Figures

- 1.1 The West Indies: a locational map 2
- 1.2 Major structural divisions of the West Indies 8
- 1.3 West Indies' landforms. (a) volcanic landforms, northern St Vincent; (b) Barbados, showing the coral limestone cap and the Scotland District core; (c) Tertiary limestone landforms, Jamaica; (d) landforms on crystalline rocks, Blue Mountains, Jamaica 10
- 1.4 Mean sea-surface temperatures of the island Caribbean region 14
- 1.5 Weather patterns in the West Indies 16
- 1.6 The orographic effect of small islands in the trade-wind zone 18
- 1.7 Annual precipitation totals in the West Indies 21
- 1.8 West Indian climates 23
- 1.9 Native vegetation formations in the West Indies 26
- 1.10 General patterns of nutrient cycling in tropical rain-forest 30
- 1.11 The disposition of mangrove species on West Indian coastlands 33

1.12	Ferralitic soil structure in the West Indies	36
1.13	Relationships between the numbers of species (reptiles and amphibians) present and island size in the West Indies	39
2.1	Distribution of aboriginal indian groups in the West Indies in 1492	42
2.2	Palaeo- and meso-indian sites in the West Indies	46
2.3	Location of the Constanza basin, Española	49
2.4	Location of the Ciguayo and Macorix peoples, Española, in 1492	52
2.5	Subsistence sources for indian <i>conuco</i> agriculturalists	54
2.6	The manioc-sweet potato complex	56
2.7	Arawak indian house styles	67
2.8	<i>Cazicazgos</i> in Española, 1492	68
3.1	Atlantic islands controlled by the Portuguese in the fifteenth century	81
3.2	An early caravel	82
3.3	Early sailing routes across the Atlantic	85
3.4	Hispanic settlements in Española, 1492 to 1496	88
3.5	Sixteenth-century Santo Domingo, after its rebuilding in 1502	99
3.6	The new <i>villas</i> created in Española between 1503 and 1509, and elsewhere in the Hispanic West Indies between 1509 and 1519	102
3.7	The sugar-producing districts of Española, after 1515	113
3.8	The Florida Straits, and the influence of its location on shipping movements from Habana: revised homeward routes to Spain after 1519	124
4.1	The level of bullion imports into Spain, 1550 to 1650	130
4.2	Buccaneer base camps in the northern Caribbean, 1570 to 1620	133
✕ 4.3	Dutch interests in the island Caribbean, 1600 to 1630	140
4.4	English and French settlements in St Kitts, 1624 to 1645	143
4.5	The Ligon map of Barbados, c 1647	144
4.6	Source areas of the major agents of environmental change in the West Indies, 1624 to 1645	169
4.7	Early settlements in Antigua	170
4.8	Settlement in Guadeloupe and adjacent islands, to 1645	172
5.1	The sugar-growing districts of Brazil during the 1640s	179
5.2	The three-roller sugar mill of Brazil	181
✕ 5.3	The Pernambuco model of sugar-cane production	182
5.4	Forest clearance in Barbados, 1645 to 1665	185
5.5	Parish councils in Barbados, 1645	205
5.6	The early development of Bridgetown, Barbados	206
5.7	Outmigration from Barbados, 1650 to 1666	217

5.8	Early settlement in Jamaica, 1645 to 1665	227
5.9	The Barbados model of sugar-cane production	229
6.1	Early (c 1700) French settlements in St Domingue	245
6.2	Major sugar-producing districts in St Domingue, 1791	254
6.3	French sugar refineries in the island Caribbean, 1680 and 1681	263
6.4	Free ports in the island Caribbean, 1757 to the 1790s	280
7.1	Settled land in Antigua during the 1670s	291
7.2	'Plantations' present in Jamaica in 1670	293
7.3	Estates and towns present in Jamaica in 1774	295
7.4	Sugar estates, towns and other settlements in Martinique and Guadeloupe during the 1690s	298
7.5	Tobacco and sugar estates in Cuba, 1550 to 1650	302
7.6	Eighteenth- and early nineteenth-century extension of the zone of cane estates in Cuba	305
7.7	Total population growth in Caribbean territories, 1665 to 1833	307
7.8	Slave-white/production ratios in Barbados and Jamaica	310
7.9	Slave-white/production ratios in the northern Leeward Islands	314
7.10	Slave-white/production ratios in the Ceded Islands, Trinidad and St Lucia	317
7.11	Slave-white/production ratios in the French territories and Cuba	322
8.1	Totals of 'big', 'middling', and 'small' planters, and of freemen holding less than 2.4 ha in Barbados, by parish, 1680	330
8.2	The major Pinney estates on Nevis	335
8.3	Categories of estate landholders in St Mary's parish, Antigua, in 1688, 1706 and 1767	338
8.4	Changes in the patterns of estate ownership, numbers of planters, and types of plantation by product in Jamaica, 1671 to 1684	342
8.5	Growth of Worthy Park estate, Jamaica, between 1670 and 1684	343
8.6	Eighteenth-century (1732) land division in Grandeterre, Guadeloupe	350
8.7	Major districts of freedman settlement in Trinidad during the last quarter of the eighteenth century	374
8.8	Town plans of Kingston, Jamaica, and Bridgetown, Barbados, 1702 and 1722 respectively	380
9.1	Labat's (1724) idealised sugar plantation	387
9.2	Actual sugar plantation layout (Galbaud du Fort, Leogane, St Domingue) in the mid-eighteenth century	388
9.3	Avalle's (1796) idealised sugar plantation	390
9.4	The Barbados cane-hole system	403
9.5	Centres of innovation diffusion in the West Indies, 1665 to 1720	406

9.6	Windmill design in Barbados	412
9.7	Windmills in Barbados: a section of the map by H. Moll (1722)	414
9.8	Roller arrangements in the 'triangular' roller mill in the late eighteenth century	419
9.9	Construction of cane holes in the early nineteenth century	431
9.10	Major areas of soil loss in Barbados during the 1790s	436
9.11	Major areas of soil loss in Jamaica during the 1830s	437
9.12	The rate of arrival of common weeds in Barbados	442
9.13	Major innovations in West Indian agriculture, 1665 to 1833	446
10.1	Epidemic diseases in Habana, 1810 to 1910	457
10.2	The distribution of major urban areas in Cuba, 1899	461
10.3	The dispersal of cholera in the island Caribbean, 1849 to 1854	467
10.4	The major sugar-producing districts of Cuba, 1830 to 1850	487
10.5	Early nineteenth-century sugar estate development in Puerto Rico	493
10.6	Nineteenth-century sugar estate development in Guadeloupe and Martinique	494
10.7	Prices of sugar on the London markets during the nineteenth century	495
10.8	The extension of sugar estates in Trinidad during the nineteenth century	498
10.9	Cacao estates in Trinidad in the late nineteenth century	502
10.10	Major areas of peasant farming, with the main peasant villages, in Jamaica, to 1860	509
11.1	Two areas of severe soil loss and soil erosion within the island Caribbean	526
11.2	Changes in land use, Trinidad, 1924 to 1950	527
11.3	A classic population growth curve	527
11.4	Effects of development on environment within the West Indies: a general model	534

Tables

1.1	Groupings and size of islands in the West Indies	4
1.2	The major geological periods which relate to the formation of the West Indies	6
1.3	Modification of temperature: Guadeloupe	17
1.4	Mean monthly windspeeds at Basseterre, St Kitts	18
1.5	Mean monthly precipitation totals for Basseterre, St Kitts and Bridgetown, Barbados	20
1.6	Comparative P-PE data for two stations in Barbados	24
1.7	Vegetation formations in the lowland West Indies	28

1.8	Litter fall, surface litter and decomposition rate of litter in rain-forests of different elevations	29
2.1	Decline in mean yields from <i>conucos</i>	57
2.2	Estimated annual labour inputs for <i>conucos</i> in coastal Nicaragua	59
2.3	Approximate calorie return per hour input of work for different means of acquisition of food in <i>conuco</i> settlements	62
2.4	Vegetable protein of certain plants	64
2.5	Main seasonal sources of available food stuffs for the island Arawak	65
✕ 3.1	Introduction of cultivated plants and domesticated animals into Española, 1492-1519	116
3.2	Patterns of environmental change in selected habitats, to 1519	121
3.3	New World destinations of sixteenth-century Spanish colonists of known origin	122
4.1	Early land grants in Barbados, 1628-38	148
✕ 4.2	Tobacco shipments from St Kitts and Barbados, 1637-40	158
4.3	Patterns of environmental change in St Kitts and Barbados, 1624-45	168
4.4	Estimated population of selected colonies in the Americas, 1629 and 1642	173
5.1	Horses exported by licence from England to Barbados 1652-65	199
5.2	Selected fees of the Secretary of Council, Barbados, 1642-50	210
5.3	Environmental changes in Barbados, 1645-65	223
✕ 6.1	General population totals in the West Indies, 1665 and 1833	236
✕ 6.2	Factors leading to the expansion or decline of sugar cane estate production in the West Indies, 1665-1833	238
✕ 6.3	Major wars and treaties affecting development in the West Indies, 1665-1833	241
✕ 6.4	Annual price of muscovado sugar on the London market, 1665-1829	269
6.5	Freight and insurance rates on sugar from the West Indies to London, 1700-50	273
7.1	Sugar imports into England and Wales, 1650-4 to 1695-9	285
✕ 7.2	Sugar production, English colonies, 1700-4 to 1825-29	286
✕ 7.3	Sugar production, French and Spanish colonies, 1700-4 to 1825-9	287
7.4	Total production of sugar in the English West Indian colonies, 1700-4 to 1825-9	288
7.5	Slave-white ratios of Barbados and Jamaica	311
7.6	Slave-white ratios of the major northern Leeward Islands	313
7.7	Slave-white ratios in the Ceded Islands	316
7.8	Slave-white ratios in Trinidad and St Lucia	318

7.9	Slave-white ratios in the French islands	320
7.10	Slave-white ratios in Cuba and Puerto Rico	321
7.11	The rural-urban balance of population in Cuba, 1827	324
✕ 8.1	Distribution and classification of Barbados property owners, according to the 1680 census	329
8.2	The role of 'big' planters in Barbados, 1680	333
8.3	Classification of Nevis property owners, according to the 1678 census	334
8.4	Classification of Antiguan property owners, according to the 1678 census	338
✕ 8.5	Servants shipped from Bristol to the West Indies, 1654-86	361
✕ 8.6	Estimated number of African slaves brought into the British West Indies, 1627 to 1775	364
✕ 8.7	Number of slaves delivered to selected territories, 1698-1707	366
✕ 8.8	Percentages of freedmen in selected West Indian territories, c 1780 and c 1830	373
✕ 9.1	Types of mill present in selected territories in the eighteenth and early nineteenth centuries	410
9.2	Plantations with sugar mills in Barbados, according to parish, 1685 and 1722	416
✕ 9.3	Production and harvesting rates for different mill types	423
✕ 9.4	Major estate innovations and their sources, 1665-1833	444
✕ 10.1	Slave imports into Brazil and the Hispanic-American islands, 1830-60	445
✕ 10.2	Population growth in selected Caribbean territories, 1833-1900	459
✕ 10.3	Potential labour-force locally available for estate owners in British West Indian colonies at emancipation	472
10.4	Immigration to the British West Indies, 1834-65	474
10.5	Immigration of liberated Africans into Jamaica, 1834-67	477
✕ 10.6	Summary of population movements in the West Indies, 1833-1900	483
10.7	Regional annual Caribbean production of sugar cane, 1835-9 to 1895-9	485
10.8	Annual production of sugar cane in Hispanic and French Caribbean territories, 1835-9 to 1895-9	485
10.9	Annual production of sugar cane in British Caribbean territories, 1835-99	496
✕ 10.10	Ranking lists of Caribbean sugar producers, 1835-9, 1865-9 and 1895-9	500
10.11	Patterns of peasant production in Jamaica, 1850 and 1890	511

xvi *Illustrations*

11.1	Population and population density of West Indian islands, 1981	520
11.2	Present political status, and date achieved, of former British colonies in the Caribbean	522
11.3	Caribbean sugar production, 1923–4, 1962–3 and 1982–3	524
